MIL-P-18942A(OS)
Amendment 3
25 August 1971
Superseding
Amendment 2
23 March 1966

MILITARY SPECIFICATION

PROPELLANT FOR 20 MM AIRCRAFT GUN MARK 12

This amendment forms a part of Military Specification MIL-P-18942A(NOrd) dated 18 December 1956 and has been approved for use by the Naval Ordnance Systems Command, Department of Navy.

By this amendment, basic specification MIL-P-18942A(NOrd) is changed to read MIL-P-18942A(OS), and throughout the specification "Bureau of Ordnance" shall be changed to "Naval Ordnance Systems Command" and "BuOrd shall be changed to "NAVORDSYSCOM".

1. Page 1, Paragraph 2.1, Specifications, Military, Delete "MIL-P-11960 Propellants, General Specifications for Methods of Inspection, Sampling, and Testing". Substitute "MIL-STD-286 Propellants; Sampling, Inspection and Testing".

2. Page 2, paragraph 2.2, delete in its entirety and substitute:

"2.2 Other publications. The following documents form a part of this specification to the extent specified herein. Unless otherwise indicated the issue in effect on date of invitation for bids shall apply.

Code of Federal Regulations

49 CFR 171-178 Hazardous Materials Regulations, Department of Transportation

MANUALS

Department of Defense

4145.26M DOD Contractor's Safety Manual for Ammunition Explosives and Related Dangerous Material

(Applications for copies of the above publications should be addressed to Superintendent of Documents, Government Printing Office, Washington, D.C. 20402)".

3. Page 5, Paragraph 3.12.1, Delete in its entirety and substitute 3.12.1: "Action Time. (See 6.3.2).

When assembled in the 20 mm target practice round, the propellant shall ignite properly with the standard M52A3B1 primer, The propellant action time shall be determined by firing 50 rounds in a Mann barrel. Action time, defined as the interval between closing the firing key and the emergence of the projectile from the
