3.2 Design, line 2: Delete "four" and substitute "five."

Page 7

Table II, Operation 3a, lines 2 and 3: Delete "as specified by the patterns" and substitute "approximately 3/8 inch."

Page 8

Table II (cont'd):

a. Operation 7b, line 1: After "side" add "(the opposite side from where the stud portion of the snap fasteners are to be located)."

b. Operation 8a, line 5: After "patterns" add "The width of the hem shall be 1/2 ± 1/16 inch."

Page 11

Table II (cont'd), Operation 15a and b: Delete entirely and substitute the following:

"15. Attach the snap fasteners

a. Attach the three studs on the left back flap as indicated by the patterns. After facing of the neck area of the left back flap, attach the fourth stud in line with the other three studs approximately centered in the neck flap facing. The fifth stud shall be approximately centered and located

in the neck flap facing and flap side hem approximately 2-1/8 inches from the fourth stud (measured center to center). The snap fastener patches shall also be caught between the studs and eyelets.

b. Attach the five sockets with the pronged ring on the right side of the back opening, four approximately centered in the hemmed portion, in such a manner that they shall align and mate with the five studs on the left back flap without causing any distortion, twisting or puckering of the backs (see Figure 1)."
