MILITARY SPECIFICATION

LAMINATING RESIN

This amendment forms a part of Military Specification MIL-L-52696(ME) dated 3 August 1970 and is approved for use by the US Army Mobility Equipment Research and Development Command, Department of the Army and is available for use by all Departments and Agencies of the Department of Defense.

PAGE 1

1.2, delete sizes A and B and substitute the following:

"Size A - One, partially filled half-pint can of epoxy resin (see 3.4), and one, full 2-ounce tube of hardener (see 3.5).

Size B - One, partially filled pint can of epoxy resin (see 3.4), and one, full 4-ounce tube of hardener (see 3.5)."

2.1, under SPECIFICATIONS, Federal, add:

"QQ-S-781	- Strapping, Steel, and Seals.
PPP-T-60	- Tape, Packaging, Waterproof.
PPP-T-1637	- Tube, Shipping, Collapsible."

2.1, under SPECIFICATIONS, Military, delete:

"MIL-T-3689	- Tubes, Collapsible."

2.1, under STANDARDS, Military, add:

"MIL-STD-147	- Palletized Unit Loads.
MIL-STD-1188	- Commercial Packaging of Supplies and Equipment."

PAGE 2

2.2, delete "UNIFORM CLASSIFICATION COMMITTEE, AGENT" and "NATIONAL MOTOR FREIGHT TRAFFIC ASSOCIATION, INC., AGENT" and all associated information related to each.

Add the following:

"AMERICAN SOCIETY FOR TESTING AND MATERIALS (ASTM)

ASTM D 570 - Water Absorption of Plastics, Test for.

(Application for copies should be addressed to the American Society for Testing and Materials, 1916 Race Street, Philadelphia, PA 19103.)"

PAGE 4

3.5, delete the last two sentences and substitute the following:

"Size A shall be a 2-ounce tube filled to its rated capacity with hardener and size B shall be a 4-ounce tube filled to its rated capacity with hardener."

PAGE 8

4.6.6, line 2, delete "FED. TEST METHOD STD. NO. 406, method 7031." and substitute "ASTM D570."

PAGE 9

4.8, delete "preparation for delivery" and substitute "packaging."

4.8.1.3, delete the numbered defects and substitute the following:

"101. Primary containers for the epoxy resin and hardener not filled with the specified number of ounces (3.4, 3.5 and 5.1).
102. Primary containers not as specified (see 3.5 and 5.1).
103. Tubes of hardener not cushioned or placed in cells as specified (see 5.2).
104. Intermediate containers not waterproof sealed as specified for level A (see 5.3.1) and level B (see 5.3.2).
105. Strapping not as specified (see 5.3.1).
106. Shipping container weights exceed limitations specified herein and in the applicable container specification (see 5.3.1 and 5.3.2).
107. Marking illegible, incomplete, or incorrect (see 5.5)."

5. Delete entire section 5 and substitute the following:

"5. PACKAGING

"5.1 Primary containers. The epoxy resin shall be placed in cans conforming to PPP-C-96, type V, class 2 in amounts according to the requirements for sizes A and B (see 3.4). The hardener shall be placed in plastic tubes according to the specified hardener to resin ratio (see 3.5); tubes shall conform to PPP-T-1637, type II, class 4.

"5.2 Intermediate containers. The laminating resins, in the primary containers specified in 5.1, shall be placed in intermediate containers conforming to PPP-B-636, W5c or W6c. Size A laminating resins shall be packed in units of 12 half-pint cans of epoxy resin along with 12 2-ounce tubes of hardener. Size B laminating resins shall be packed in units of six pint cans of epoxy resin along with 6 4-ounce tubes of hardener. The plastic tubes shall be cushioned or placed in cells to prevent damage due to free movement within the box. After closure, the boxes shall be waterproof sealed with PPP-T-60 tape in accordance with the appendix of PPP-B-636."

"5.3 Packing. Degrees of packing shall be level A, level B or commercial as specified (see 6.2).

"5.3.1 Level A. The laminating resins, in intermediate containers as specified in 5.2, shall be packed in a close fitting container conforming to PPP-B-601, overseas type, style I, in quantities not to exceed 250 pounds net weight. Strapping shall be type I, class B, grade 2 of QQ-S-781. Application of strapping shall comply with the appendix of the box specification.

"5.3.2 Level B. Intermediate containers (see 5.2) of the laminating resins shall serve as the shipping container. When specified (see 6.2), intermediate containers of like sizes of laminating resins shall be overpacked into a box conforming to PPP-B-636, V3c or PPP-B-640, class 2. The gross weight of the overpack container shall not exceed the weight limitation of the box specification. After closure, the boxes shall be waterproof sealed with tape (see 5.2).

"5.3.3 Commercial. Commercial packing shall conform to MIL-STD-1188.

"5.4 Palletization. When specified (see 6.2), exterior containers for levels A and B packing (see 5.3.1 and 5.3.2) shall be palletized in accordance with MIL-STD-147. Commercial packs shall be palletized at the discretion of the supplier using commercial type pallets.

"5.5 Marking. In addition to any special marking required by the contract or purchase order (see 6.2), primary containers, intermediate containers, and shipping containers for levels A and B packing shall be marked in accordance with MIL-STD-129. Marking for commercial packing shall be in accordance with MIL-STD-1188."

PAGE 10

6.2, delete (d), (e), and (f) entirely and substitute the following:

"(d) Degree of packing required (see 5.3).
(e) When intermediate containers will be overpacked for level B (see 5.3.2).
(f) When exterior containers shall be palletized (see 5.4).
(g) Any special marking required (see 5.5)."
