Check the source to verify that this is the current version before use.

NECKBAND: The neckband shall conform to Figure 9 in the latest version of MIL-DTL-3943, except that the manufacturer may deviate from this drawing by increasing the finished length of the neckband to 26 inches + 1/2 inch - 0.

DECORATION CASE: The decoration set shall consist of a neckband with pendant, a service ribbon with ribbon attachment, and a lapel button all packaged in a decoration case conforming to MIL-DTL-14633, Type VII, Style 5 with a Class 1 or 1A pad. The following shall be inscribed on the top of the decoration case using three lines: (Line 1) CONGRESSIONAL (Line 2) BADGE OF BRAVERY (Line 3) STATE AND LOCAL.

NOTES:

1. The term (REF) refers to the measurements taken from the obverse Government furnished hub or die.

2. The manufacturer may deviate from MIL-DTL-3943 by using nickel underplating prior to plating with 24K gold.

3. Hard cloisonné enamel may be used in lieu of epoxy. If hard cloisonné enamel is used, the required base material is Gilding Metal 95/5 (UNS Alloy C-210).

4. The specification slash sheet for the ribbon for the neckband and for the service ribbon is MIL-DTL-11589/639.

5. The specification slash sheet for the ribbon attachment is MIL-DTL-41819/49.

6. The specification slash sheet for the lapel button is MIL-DTL-11484/340.

7. This item is not authorized for commercial sale, and may be produced only under Government contract and at the request of the U.S. Department of Justice.

CHANGES FROM PREVIOUS ISSUE: The margins of this specification are marked with vertical lines to indicate where changes from the previous issue were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous issue.
