Procurement documents should specify the title, number, and revision issue of this specification sheet, and the military part number as listed in Table I.

Military Part Number M81663/2	Operate Volts -65°C to +125°C MIN	NOM	MAX	Coil Resistance (minimum) In Ohms at 25°C
-01	2.5	3	3.5	8
-02	5.0	6	7.0	33
-03	10.0	12	15.0	130
-04	20.0	24	30.0	530
-05	23.0	28	35.0	720

TABLE I

REQUIREMENTS

Pulse Power: 1.0 watt, nominal

Pulse Length: 40 milliseconds, minimum

Weight: .49 oz. or 14 grams, maximum

Display Presentation: FAULT color (black and white segments) is displayed by applying the appropriate pulse voltage listed in Table I with positive polarity applied to the red wire. NO FAULT color (solid black) is displayed by manually rotating the knurled ring clockwise 60° ± 10° to stop. The knurled ring will automatically return to normal position after release except that below 0°C manual assistance may be required for return to normal position.

SPECIFICATION ANALYSIS SHEET

Form Approved
Budget Bureau No. 22-R255

INSTRUCTIONS: This sheet is to be filled out by personnel, either Government or contractor, involved in the use of the specification in procurement of products for ultimate use by the Department of Defense. This sheet is provided for obtaining information on the use of this specification which will insure that suitable products can be procured with a minimum amount of delay and at the least cost. Comments and the return of this form will be appreciated. Fold on lines on reverse side, staple in corner, and send to preparing activity. Comments and suggestions submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or serve to amend contractual requirements.
