COMMERCIAL ITEM DESCRIPTION

ICING MIXES, POWDER

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description.

1. SCOPE.

1.1 This Commercial Item Description (CID) covers the following powdered icing mixes, packed in commercially acceptable containers, suitable for use by the Federal Government, which, when combined with water, will form an icing for bakery products.

2. CLASSIFICATION.

2.1 The powdered icing mixes shall conform to the types in the following list which shall be specified in the solicitation, contract, or purchase order.

Types.

Type I - Chocolate flavored
Type II - Vanilla flavored

3. SALIENT CHARACTERISTICS.

3.1 Finished product: The powdered icing mixes shall contain powdered sugar, emulsified shortening (12 to 14 percent by weight of the formula), nonfat dry milk (not to exceed 3 percent by weight of the formula), and anticaking agents.

Beneficial comments, recommendations, additions, deletions, clarifications, etc., and any data which may improve this document should be sent to: Commander, Defense Personnel Support Center, 2800 South 20th Street, ATTN: DPSC-HSL, Philadelphia, PA 19145-5099 or FAX (215) 737-2963.

FSC 8925

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

3.1.1 Appearance and color: When prepared according to the manufacturer's directions, the icing mixes shall set within 30 minutes at room temperature and shall not curdle or contain any visible free water. The prepared icing mixes shall not contain specks of cocoa, color, or shortening. The prepared icing mixes shall have a color typical of the type of icing.

3.1.2 Odor and flavor: The prepared icing mixes shall have an odor and flavor typical of the type of icing.

3.1.3 Texture: When prepared according to the manufacturer's directions, the icing mixes shall possess a creamy, uniform texture which is free of grainy texture. When bakery products are iced, the prepared icing mixes shall be easy to spread and have a high sheen.

3.1.4 Moisture content: The powdered vanilla icing mix shall have a moisture content of not more than 1.8 percent. The powdered chocolate icing mix shall have a moisture content of not more than 2.3 percent.

3.2 Preparation: When prepared according to the manufacturer's directions, one pound of powdered icing mix shall yield a minimum of one pint of icing.

3.3 Age requirement: When specified in the solicitation, contract, or purchase order, the powdered icing mixes shall be manufactured not more than 60 days prior to delivery.

3.4 Analytical requirements: Unless otherwise specified, analytical requirements for the powdered icing mixes shall be as stated above.

3.4.1 Analytical procedure: Three containers shall be selected at random.

3.4.2 Preparation of sample: The sample shall be prepared according to the Official Methods of Analysis of the AOAC International, Method 920.175(a). The sample to be analyzed shall be 8 ounces (226.8 g) derived from a composite of the three containers.

3.4.3 Analytical testing: The sample shall be analyzed using the following method:

Test	Method
Moisture	925.45a 1/

1/ Modified for conformance to the moisture requirement of the applicable product and the temperature of the vacuum oven 65EC.

3.4.4 Test results: The test results shall be reported to the nearest 0.1 percent. Any result not conforming to the finished product requirements shall be cause for rejection the lot.

Check the source to verify that this is the current version before use.

3.4.5 Test procedure for chocolate icing mix: To test for hard specks in prepared chocolate icing mix, place a sheet of heavy white wrapping paper on a smooth surface. Thinly spread sufficient prepared icing to cover about a square foot area with a large spatula.

4. REGULATORY REQUIREMENTS.

4.1 The delivered powdered icing mixes shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sale of the powdered icing mixes within the commercial marketplace. Delivered powdered icing mixes shall comply with all applicable provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

5. QUALITY ASSURANCE PROVISIONS.

5.1 Product conformance. The powdered icing mixes provided shall meet the salient characteristics of this CID, conform to the producer's own specifications, standards, and quality assurance practices, and be the same powdered icing mixes offered for sale in the commercial market. The Government reserves the right to require proof of such conformance.

5.2 Quality assurance. When required in the solicitation, contract, or purchase order that product quality or acceptability or both be determined, the Processed Products Branch (PPB), Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, shall be the certifying activity and shall make the determination in accordance with applicable PPB procedures. The powdered icing mixes shall be examined or analyzed or both in accordance with applicable provisions in this CID, solicitation, contract, or purchase order, and, when applicable, the United States Standards for Condition of Food Containers in effect on the date of solicitation.

6. PACKAGING.

6.1 Preservation, packaging, packing, labeling, and case marking. Preservation, packaging, packing, labeling, and case marking shall be as specified in the solicitation, contract, or purchase order.

7. NOTES.

7.1 Purchasers shall specify:

- Type(s) of powdered icing mixes required.
