COMMERCIAL ITEM DESCRIPTION

FORMULA, INFANT, POWDERED, MILK-BASED

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description.

This Commercial Item Description covers milk-based powdered infant formula suitable for use by the Federal Government.

Salient Characteristics.

The milk-based powdered infant formula shall be of the following type and container pack and packaging size as specified in the contract or purchase order.

1. Type:
   a. Milk-Based Powdered Infant Formula.
   b. Milk-Based Powdered Infant Formula, Iron-Fortified.

2. Container pack and packaging size:
   a. 1-pound can, packed 6 cans per case.
   b. 1-pound can, packed 12 cans per case.
   c. 30.1 gram foil pouch, packed 4 pouches per carton, packed 6 cartons per case.
   d. 30.1 gram foil pouch, packed 4 pouches per carton, packed 12 cartons per case.

The milk-based powdered infant formula shall contain not more than three percent moisture by weight and be of suitable particle size and solubility such that it will readily disperse in water at room temperature in the proportions recommended for its use. The product shall be free from lumps and foreign material and contain not more than 15.0 mg scorched particles when compared to the United States Scorched Particle Standards for Dry Milks (7 CFR 58.2676). When mixed with water, it shall have a normal characteristic taste and odor, free from rancidity and other undesirable tastes and odors. Upon microbiological analysis, the milk-based powdered infant formula shall not exceed the following results:

Standard Plate Count - maximum: 500 per gram of dried powder.
Coliform - maximum: 10 per gram of dried powder.
Salmonella - (per 1500 gram sample) - negative.
Coagulase Positive Staphylococci - (per gram) - negative.

Cans of milk-based powdered infant formula shall be free of excessive dents and distortions, free of rust and other evidence of improper storage.

Contractor's Certification.

By submitting an offer, the contractor certifies that the product offered meets the specified salient characteristics of this Commercial Item Description; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories, or possessions; and is sold on the commercial market with commercial sales to the public sector predominating over sales to the Federal Government. The Government reserves the right to determine proof of such conformance prior to the first delivery from point of origin and any time thereafter, up to and including delivery at final destination, as may be necessary to determine conformance to the provisions of the contract.

Regulatory Requirements.

The delivered product shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sales of the product in the commercial marketplace.

The product shall comply with all regulations pursuant to the provisions of the following Acts:

1. Food, Drug, and Cosmetic Act (21 CFR Parts 1 to 199).
2. Infant Formula Act of 1980.

Preservation, Packaging, Packing, Labeling, and Marking (as appropriate and applicable).

The product shall be preserved, packaged, and labeled in accordance with good commercial practice and packed in fiberboard boxes that will assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. Shipping containers shall comply with National Motor Freight or Uniform Freight Classification, as applicable. Each pound container shall include a measuring scoop and be equipped with a plastic lid for use after opening.

Notes.

- Purchaser shall specify labeling requirements, if different from good commercial practice.

- Purchaser shall specify type of milk-based powdered infant formula.

- Purchaser shall specify container pack and packaging size.

- Purchaser shall specify if the product is to be processed in a plant approved by the Dairy Grading Branch, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture (USDA).
