NOTES:

1. MATERIAL: Steel, form 1 (forged), in accordance with procurement specification.
2. (A) PROTECTIVE COATING: Zinc coated (hot dip galvanized) in accordance with procurement specification.
3. THREADS: The threads are in accordance with Screw-Thread Standards for Federal Services, Handbook H25.
4. DIMENSIONS: All dimensions are in inches, unless otherwise specified.
5. PART NUMBER: The MS part number consists of the MS number, plus the dash number. Example: MS27951-1.
6. Recommended working load (safety factor 5 to 1), based on breaking strength at thread root.
7. Referenced documents shall be of the issue in effect on date of invitations for bid.
8. For design feature purposes, this standard takes precedence over procurement documents referenced herein.

REVIEWER: IEL, IS, ME, MI, NSA, 85
(SERIAS, AT, MC, OS, YD

This military standard is mandatory for use by all Departments and Agencies of the Department of Defense. Selection for all new engineering and design applications and for repetitive use shall be made from this document.
