DATA ITEM DESCRIPTION

TITLE: MILCON Interface Control Document (ICD)

Number: DI-FACR-82306
AMSC Number: 10124
DTIC Applicable: No
Preparing Activity: MDA
Applicable Forms: No

Approval Date: 20191114
Limitation:
GIDEP Applicable: No
Project Number: FACR-2019-004

Use/Relationship: The MILCON Interface Control Document (ICD) describes the design interfaces with the contractor's design and the MILCON design. This document shall be retained for reference by the operations and maintenance personnel.

This DID contains the format, content, and intended use information for the MILCON ICD. It is intended that all requirements contained herein shall apply to all applicable DoD acquisition programs through all program phases.

The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as specified in the contract.

Requirements:

1. Format. Contractor format is acceptable. Format shall be machine-readable by the government.

2. Content.

2.1 Cover Page and Document Tracking Information.

2.1.1 Cover Page. Title, Date of Issue, Revision Date, Contract Number, Contractor's name and address, Distribution Statement, Export Control Warning Label, and Security classification

2.1.2 Record of Change Page. Enter a record of all changes made to the Interface Control Document package

2.2 Table of Contents. A listing of the major sections identified as below.

2.3 Applicability. Describe the purpose of the document.

2.4 Content. The document shall contain the following:

2.4.1. Interface Design.

2.4.1.1 Drawings. Provide drawing(s) and descriptions that:

a. Outline the interfaces and compatibility between the Government MILCON Facilities Requirements Document (FRD) and the contractor Delta Facilities Requirements Document (ΔFRD).
b. Describe and detail the interfaces for power, utilities, communications, security, plumbing, fire/protection, and mechanical.

2.4.1.2 Interface Identification and Diagrams. Provide the unique identifier assigned to the interface and identify the interfacing entities by name, number, version, and documentations reference, as applicable. Ensure that the drawings contain the interface identifier.

2.4.1.3 Characteristics. Provide the characteristics and thresholds of each interface. Note any de-rating factors implemented in the interface.

2.4.1.4 Standard. Provide the standard(s) on each interface for which it applies.

2.4.2. Requirements Traceability. Provide the requirements traceability for each interface.

END OF DI-FACR-82306
