DATA ITEM DESCRIPTION
Title: PHASE-IN PLAN

Number: DI-SESS-82303
AMSC Number: N10118
DTIC Applicable: N/A
Preparing Activity: AS
Applicable Forms: N/A

Approval Date: 20191015
Limitation: N/A
GIDEP Applicable: N/A
Project Number: SESS-2019-067

Use/Relationship: The Phase-In Plan provides a detailed description of the transfer of and full assumption of duties at each site from the predecessor contractor.

This Data Item Description (DID) contains the format, content, and intended use information for the data product resulting from the work task described in the Statement of Work (SOW).

Requirements:

1. Reference Documents. None

2. Format. Contractor's format is acceptable.

3. Content. The Phase-In Plan shall include:

3.1 A written comprehensive plan explaining actions required to complete the total transition effort within sixty (60)-calendar day transition period, to include phase-in matters associated with the transfer to enable the Contractor's personnel to perform contract requirements.

3.2 Details of accounts and subscription services to be transferred in the transition.

3.3 Process to conduct a full joint inventory and transfer of all Government-owned property/inventory and all property in the pipeline until delivered, including all records.

3.4 Status of all items in inventory, as well as the items that have been inducted into repair facilities, are being modified, or are being purchased.

3.5 Schedule, to include critical path, for risk mitigation throughout the transition period.

3.6 Impact on the mission if this data is not acquired (be specific):

3.6.1 Delivery and completion of the efforts described in the Phase-In Plan is imperative to transferring responsibilities from the incumbent to the new CLS provider. A lapse in CLS contract coverage could greatly impact accomplishment of the TACAMO mission, and not afford the prospective Contractor the opportunity to define tasks required to fully perform the duties described in the PWS.

End of DI-SESS-82303
