COMMERCIAL ITEM DESCRIPTION

PADS, SCOURING, PLASTIC SPONGE (WITH ABRASIVE BACK)

The General Services Administration has authorized the use of this commercial item description in lieu of Federal Specification L-P-50.

This commercial item description covers abrasive-backed polyester plastic sponge scouring pads, in two sizes, that meet the salient characteristics shown below.

Salient characteristics:

Sizes:

Dimensions (inches)	Size 1	Size 2
Length (minimum)	4-1/2	5
Width (minimum)	3	3-1/2
Thickness (minimum)	1/2	1-1/2

The sponge portion shall be made of uncompressed polyester polyurethane foam commercially suitable for the purpose intended.

The abrasive shall be a good quality corundum (aluminum oxide).

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing, and marking. The scouring pads shall be packaged in accordance with normal commercial practice and packed in shipping containers that will assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with National Motor Freight Classification and Uniform Freight Classification. Shipping containers shall be marked as specified in the contract or order.
