COMMERCIAL ITEM DESCRIPTION

MAGNETIC STRIP

The General Services Administration has authorized the use of this commercial item description

This commercial item description covers flexible magnetic strip rolls with adhesive back.

Salient characteristics.

Magnet shall consist of a magnetized powder thoroughly dispersed in a thermoplastic or curable rubber binder having long chain polymers which are highly resistant to ozone, oxygen, acids and other corrosive chemicals

Shall have a pressure sensitive adhesive applied to one surface of the tape, adhesive shall have a removable protective cover.

When adhered to a clean smooth glass or plastic surface [illegible] shall be capable of holding a load of 0.5 pound (8-oz) per square inch of adhesive back surface for 120 minutes without any measurable downward vertical movement of the strip

When applied to a clean smooth metallic (ferrous) surface in a vertical plane at 25° ± 5° C, shall be capable of holding a load of 0.3125 pound (5-oz) per square inch of magnetic surface for two minutes without any measurable downward vertical movement of the strip.

Sizes shall be as specified in Table I below

Table I.

Size No.	Width (inches)	Thickness (inches)
1	1/2 ± 1/16	0.06 ± .01
2	1 ± 1/16	0.06 ± .01
3	1 ± 1/16	0.09 ± .01
4	2 ± 1/16	0.06 ± .01

Shall be supplied in rolls no less than 100 feet in length.

Workmanship The magnetic strip shall be free of defects which affect its use or serviceability.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same product sold in the commercial marketplace The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements The manufacturer shall utilize recovered materials to the maximum extent practicable

Packaging, packing, and marking. The items shall be packaged in accordance with normal commercial practice and packed to assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling and storage The shipping container shall be in compliance with National Motor Freight Classification and Uniform Freight Classification. Shipping containers shall be marked as specified in the contract or order.
