Workmanship. The shoes shall be free of holes, cuts, loose threads, etc., or any other defect that would affect the comfort and/or wearability of the footwear.

The issue of the ANSI standard in effect on the date of the solicitation shall be used to determine compliance with these requirements.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing, and marking. Packaging, packing, and marking shall be as specified in the contract or order.

Note: Purchaser should specify type, style, color, and size in the contract or order.

ANSI standards are available from American National Standards Institute, Inc., 1430 Broadway, New York, NY 10018.
