INCH-POUND

JAN-C-178A
Int. Amendment 2 (AR)
4 March 1991

JOINT ARMY-NAVY SPECIFICATION

CHARCOAL
(For Use In Ammunition)

This interim amendment is approved for use within the US Army Armament Munitions and Chemical Command, with JAN-C-178A dated 31 January 1945.

PAGE 2

* Paragraph E-1, delete in its entirety and substitute the following:

E-1 Composition - Charcoal shall be prepared by the destructive distillation of willow, alder, or suitable hardwoods in such a manner as to yield charcoal of the best composition and cleanliness of burning. (Oven or Kiln process is an acceptable alternate for destructive distillation.) When specified in the contract or order, charcoal produced from a specific source shall be required. (See para. H-2).

PAGE 3

Paragraph F-4c, delete and substitute the following:

F-4c. Granulation - The following granulation tests shall be made to determine the compliance of classes b, c, and d with the requirements of paragraph E-4. Nest the designated sieves from top to bottom in order of decreasing size of opening and attach a receiving pan to the bottom sieve. For class b and c charcoal, place a 100-gm portion of the sample on the upper sieve, cover, and shake 10 minutes by hand or 5 minutes mechanically. For class d charcoal, place a 20.0 gm portion of the sample on the upper sieve, cover, and shake for 25 minutes mechanically. The mechanical shaker shall be a single-eccentric

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

type which imparts to the sieves a rotary motion and tapping action of uniform speed of 300 ± 15 gyrations and 150 ± 10 taps of the striker per minute. Weigh the portions retained on each sieve and calculate to percentage passing through each of the sieves.

The margins of this amendment are marked with an asterisk or vertical lines to indicate where changes (additions, modifications, corrections, deletions) from the previous amendment were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous amendment.
