MILITARY SPECIFICATION

TREATMENT, MOISTURE AND FUNGUS-RESISTANT, OF COMMUNICATIONS, ELECTRONIC, AND ASSOCIATED ELECTRICAL EQUIPMENT

MIL-T-152B, dated 31 March 1961, is hereby cancelled. Replacements for MIL-V-173 should be applied in accordance with the manufactures recommendations unless specific deviations are necessary. If fungal resistance requirements are necessary, users may refer to the section on fungus resistance in SAE AS12500, "Corrosion Prevention and Deterioration Control in Electronic Components and Assemblies", as the suggested replacements varnishes for MIL-V-173 (ASTM D 3955 and ASTM D 295-58) do not contain any fungal resistance criteria. Users are cautioned to evaluate these documents for their particular application before citing them as a replacement document.
