DATA ITEM DESCRIPTION

Form Approved
OMB No 0704-0188

Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to Washington Headquarters Services, Directorate for information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503

1 TITLE	2 IDENTIFICATION NUMBER
PLANNED MAINTENANCE SYSTEM (PMS) LOGIC TREE ANALYSIS WITH SUPPORTING RATIONALE AND JUSTIFICATION	DI-MNTY-80984

3 DESCRIPTION/PURPOSE

3.1 The Planned Maintenance System (PMS) Logic Tree Analysis With Supporting Rationale and Justification defines the need for a periodic maintenance (PM) task and provides task descriptions and periodicities.

4 APPROVAL DATE (YYMMDD)	5 OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a DTIC APPLICABLE	6b GIDEP APPLICABLE
900517	N/CEL-TD		

7 APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description (DID) contains the format and content preparation instructions for the PMS Logic Tree Analysis With Supporting Rationale And Justification resulting from the work task described by 3.7.6 of MIL-P-24534 (Navy).

7.2 This DID is related to DI-MNTY-80994, Planned Maintenance System Functional Block Diagram; DI-MNTY-80979, Planned Maintenance System

(Continued on Page 2)

8 APPROVAL LIMITATION	9a APPLICABLE FORMS	9b AMSC NUMBER
		N4938

10 PREPARATION INSTRUCTIONS

10.1 Format. The PMS Logic Tree Analysis shall be documented using contractor format.

10.2 Content. The analysis shall contain the following:

10.2.1 ESWBS number. Duplicate the Expanded Ship Work Breakdown Structure (ESWBS) entry on the Functional Failure Analysis (FFA) or the Additional Functionally Significant Item (FSI) Index Selection. Each item is to have its own analysis.

10.2.2 Nomenclature. Duplicate the entry on the FFA or additional FSI Selection.

10.2.3 Ship class. Duplicate the entry on the FSI Index.

10.2.4 Prepared by. Enter the analyst's name and the date.

10.2.5 Reviewed by. Enter the first level reviewer's name and the date.

(Continued on Page 2)

11 DISTRIBUTION STATEMENT

Distribution Statement A: Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

7. Application/Interrelationship (Continued)

Master System and Subsystem Index; DI-MNTY-80980, Planned Maintenance System Failure Modes and Effects Analysis; DI-MNTY-80981, Planned Maintenance System Functional Failure Analysis; DI-MNTY-80982, Planned Maintenance System Functionally Significant Items Index; DI-MNTY-80983, Planned Maintenance System Additional Functionally Significant Item Index Selection Report; DI-MNTY-80985, Planned Maintenance System Servicing and Lubrication Analysis; DI-MNTY-80986, Planned Maintenance System Requirement Index; DI-MNTY-80987, Planned Maintenance System Procedure Evaluation Sheet; DI-MNTY-80988, Planned Maintenance System Task Definition; DI-MNTY-80989, Planned Maintenance System Inactive Equipment Maintenance Requirement Analysis; DI-MNTY-80990, Planned Maintenance System Reliability Centered Maintenance Documentation Control Sheet; DI-MNTY-80991, Planned Maintenance System Maintenance Requirement Card; DI-MNTY-80992, Planned Maintenance System Maintenance Index Page; DI-MNTY-80993, Planned Maintenance System Quality Assurance Check Sheet.

7.3 This DID requires data to be provided to the Government Information Data Exchange Program (GIDEP) at the following address: Program Director, GIDEP Operations Center, Corona, CA 91720-5000.

10. Preparation Instructions (Continued)

10.2.6 Approved by. Reserved for the PMS coordinating activity approval signature and date.

10.2.7 Revision. Enter Original, A, B, or C, sequentially and the date.

10.2.8 Functional failure and failure mode(s). Enter functional failures and related failure modes receiving a "Y" in 10.2.12 of the Failure Modes and Effects Analysis (FMEA); number each as numbered in the FMEA.

10.2.9 Criticality analysis. Enter "Y" or "N" or "NA" to signify a yes or no or not applicable answer to each of the first three logic tree questions. Possible alternatives are:

Question			Assign
1	2	3	Criticality Class
Y	Y	N/A	A
Y	N	Y	B
Y	N	N	C
N	N/A	N/A	D

10.2.10 Criticality class. Enter A, B, C, or D, based on the answers in 10.2.9. These letters identify the four main branches of the logic tree as follows:

a. Class A - operating safety

b. Class B - operating capability

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:42Z
Check the source to verify that this is the current version before use.

10. Preparation Instructions (Continued)

c. Class C - other regular functions

d. Class D - hidden or infrequent functions

10.2.11 Periodic maintenance (PM) task. Enter a "Y" or "N" to signify a yes or no answer to questions 4, 5, 6, or 7 in logic tree. If the criticality class for this failure is A, the task must be able to reduce the risk to an acceptable level; cost is not a consideration. If no task is available, a safety related design change recommendation must be identified by 10.2.13.

10.2.12 FF task. Enter "Y" or "N" signifying a yes or no answer to question 8 in the logic tree.

10.2.13 Design recommendation. Enter "Y" if one was identified for this failure; otherwise enter "N".

10.2.14 Task description. Enter a brief description of the applicable and effective tasks.

10.2.15 PERIODICITY. Enter the periodicity for the accomplishment of tasks in 10.2.14.

10.2.16 Serial number. Enter a four-segment serial number as follows:

a. Segment 1 - Enter the developing organization abbreviation followed by a slant (/).

b. Segment 2 - For developers, enter the development authorization number followed by a slant (/); for other development activities, assign a development number followed by a slant (/).

c. Segment 3 - Enter the number 120 to indicate the Logic Tree Analysis followed by a slant (/).

d. Segment 4 - Enter the ESWBS number from 10.2.1.

10.3 Decision logic tree questions rationale and justification documentation. The rationale and justification for the answers to the decision logic tree questions will be documented in free-form, simple narrative on plain paper sheets attached to the Logic Tree Analysis. The rationale and justification for the questions pertinent to each functional failure analyzed should be identified by functional failure number and description.
