DATA ITEM DESCRIPTION

Title: RELIABILITY CENTERED MAINTENANCE (RCM) PROCEDURE VALIDATION REPORT

Number: DI-SESS-80987A
AMSC Number: N9170
DTIC Applicable: N/A
Office of Primary Responsibility: SH/SEA 04RM
Applicable Forms: N/A

Approval Date: 20100923
Limitation: N/A
GIDEP Applicable: N/A

Use/Relationship:
The Reliability Centered Maintenance (RCM) Procedure Validation Report evaluates the proposed maintenance task and determines the most practical method of accomplishing the maintenance task.

This Data Item Description (DID) contains the format, content, preparation instructions and intended use information for the data deliverable resulting from the work task described in 5.1.11 of MIL-STD-3034.

This DID is related to DI-SESS-80979A, RCM Master System and Subsystem Index (MSSI); DI-SESS-80994A, RCM Functional Block Diagram (FBD); DI-SESS-80981A, RCM Functional Failure Analysis(FFA)Report; DI-SESS-80983A, RCM Additional Functionally Significant Item (AFSI) Selection Report; DI-SESS-80982A, RCM Functionally Significant Items (FSI) Index; DI-SESS-80980A, RCM Failure Modes and Effects Analysis (FMEA) Report; DI-SESS-80984A, RCM Logic Tree Analysis (LTA) with Supporting Rationale and Justification Report; DI-SESS-80985A, RCM Servicing and Lubrication Analysis (SLA) Report; DI-SESS-81829, RCM Corrective Maintenance (CM) Development Report; DI-SESS-80989A, RCM Inactive Equipment Maintenance (IEM) Requirement Analysis Report; DI-SESS-80986A, RCM Maintenance Requirements Index (MRI); DI-SESS-80988A, RCM Task Definition Report.

This DID supersedes DI-MNTY-80987.

Requirements:

1. Reference documents. The applicable issue of documents cited herein, including approval dates and dates of any applicable amendments, notices, and revisions, shall be as cited in the contract.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:42Z
Check the source to verify that this is the current version before use.

2. Format. This report shall be in Contractor's format and shall be presented in the electronic data base specified in the contract.

3. Content. The report shall contain all of the information specified in the sample form of Figure 1 of this DID as follows:

3.1 Block 1. Local control number. Enter the unique procedure validation number provided by the Maintenance Coordinating Activity (MCA) for the sub-system, sub-system equipment group, or equipment, at the lowest hierarchical level that all maintenance on the task definition form is applicable.

3.2 Block 2. Nomenclature. Enter the nomenclature of the ship subsystem, subsystem equipment group, or equipment.

3.3 Block 3. Ship class. Enter the class of ship.

3.4 Block 4. MRC serial. Enter the MRC Serial number or proposed number for reference purposes.

3.5. Block 5. Ship/Hull or facility. Enter the ship hull number or name of facility.

3.6 Block 6. Workcenter. Enter the work center responsible for the MRC, if available.

3.7 Block 7. Periodicity. Enter the task periodicity.

3.8 Block 8. Maintenance requirement description. Enter a brief task description of the maintenance requirement.

3.9 Block 9. Tag out required? Enter whether a tag out is required to safely perform the MRC.

3.10 Block 10. HAZMAT required? Enter whether HAZMAT is or will be required to perform the MRC.

3.11 Block 11. Procedure modification. Indicate whether the procedure, as written, will require modification. This is a yes/no statement.

3.12 Block 12. Safety concerns? Refer to block 12 of the RCM Task Definition form (phase 10). Enter any additional safety concerns realized during the procedure validation.

3.13 Block 13. Elapsed time. Enter the expected elapsed time

Check the source to verify that this is the current version before use.

to perform the MRC, as written.

3.14 Block 14. Actual elapsed time. Enter the elapsed time to perform the MRC as determined by the shipcheck. If it is the same as the estimate, enter "same".

3.15 Block 15. Personnel validation. Indicate whether the ratings and pay grades required to perform the MRC are valid. This is a yes/no statement.

3.16 Block 16. Comments/narrative. Enter recommended changes, in freeform text, in this block to the procedures, personnel, tag out, HAZMAT, etc. This block shall be used to address deficiencies identified in the preceding yes/no questions.

3.17 Block 17. Date & location. Enter the date the validation was performed and the shipboard location of the equipment, as applicable.

3.18 Block 18. Evaluator. Enter contact information for the person performing the validation to include: Name, Title, Activity, Phone Number, and Email address, as applicable.

4. End of DI-SESS-80987A.
