COMMERCIAL ITEM DESCRIPTION

CONTROL, HUMIDITY-TEMPERATURE RECORDING

The General Services Administration has authorized the use of this commercial item description for all federal agencies.

1. SCOPE. This commercial item description (CID) describes a Control, Humidity-Temperature Recording hereinafter referred to as a Humidity-Temperature Recorder consisting of a single unit with an easy to use interface for the user.

2. SALIENT CHARACTERISTICS. The following specifications are considered minimum Air Force requirements.

2.1 User interface. The Humidity-Temperature Recorder shall be equipped with an easy to use interface. The interface shall display Temperature 5° to 110°F with an accuracy of +/-2°F. It shall also display relative humidity (RH) from 5 to 95% RF +/-3% RH. It shall record temperature and relative humidity for 24 hours, 7 & 31 days based on user request and sampling at least once per minute.

2.2 PC interface. The Humidity-Temperature Recorder shall connect to a PC through the industry standard TIA-232-F (RS232) serial or USB port. Software shall be provided with the unit such that data can be downloaded to a PC from the recorder.

2.3 Power. The Humidity-Temperature Recorder shall be powered from 120V AC, 60HZ with battery backup power.

2.4 Enclosure. The Humidity-Temperature Recorder shall be 10”x 10” x 4” dimensions or less and weigh 5lbs or less. It shall be freestanding or can be mounted on wall.

2.5 Calibration Interval. The Humidity-Temperature Recorder shall operate without necessary calibration for at least 12 months with the stated accuracy without calibration.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data that may improve this document should be sent to: WR-ALC - 404 SCMS/GUEEA, 235 Byron Street Suite 19A, Robins AFB, GA 31098-1611. Since contact information can change, you may want to verify the currency of this address information using the ASSIST Online database at https://assist.dla.mil/ .

3. REGULATORY REQUIREMENTS.

3.1 Recycled, recovered, or environmentally preferable materials. Recycled, recovered, or environmentally preferable materials should be used to the maximum extent possible provided that the material meets or exceeds the operational and maintenance requirements, and promotes economically advantageous life cycle costs. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with 23.403 of the Federal Acquisition Regulation (FAR). However, used, rebuilt, or refurbished items shall not be provided.

3.2 Green Procurement Program. Green Procurement Program (GPP) is a mandatory federal acquisition program that focuses on the purchase and use of environmentally preferable products and services. GPP requirements apply to all acquisitions using appropriated funds, including services and new requirements. FAR 23.404(b) applies and states the GPP requires 100% of EPA designated product purchase that are included in the Comprehensive Procurement Guidelines list that contains recovered materials, unless the item cannot be acquired: a) competitively within a reasonable timeframe; b) meet appropriate performance standards, or c) at a reasonable price. The prime contractor is responsible for ensuring that all subcontractors comply with this requirement.

4. PRODUCT CONFORMANCE PROVISIONS

4.1 Product conformance. The contractor shall certify that the product offered meets the requirements of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product offered for sale in the commercial marketplace. Small businesses that cannot offer products with established commercial market acceptability may compete by submission of bid samples. (The government reserves the rights to require proof of such conformance before first delivery and thereafter as may be otherwise provided under the provisions of the contract).

4.2 Demonstration. For laboratories in the United States only, the contractor shall be responsible for demonstration that the equipment is ready for use at the designated Air Force laboratory and demonstration is projected to take one day.

4.3 Operation and Maintenance Manuals. One copy of the commercial operation and maintenance manual(s), including calibration procedures and adjustments, as applicable, shall be shipped with the equipment. One additional copy of the operation and maintenance manual shall be shipped to the cognizant engineer at this address; Tiffany Morris, 404 SCMS/GUEEA, 235 Byron Street, Ste 19A, Robins AFB, GA 31098-1670.

4.4 Warranty. The Humidity-Temperature Recorder and related parts shall carry a one year, parts and labor, warranty from the date of purchase.

5. PACKAGING.

5.1 Preservation, packing, and marking shall be as specified in the contract or order.
