L-B-2009
AMENDMENT-1
August 8, 1977

FEDERAL SPECIFICATION

BASKET, WASTEPAPER, PLASTIC

This amendment, which forms a part of Federal Specification L-B-2009, dated November 29, 1976, was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

PAGE 2

Paragraph 3.3.1, delete entire paragraph and substitute the following:

"3.3.1 Fire hazard. When tested as specified in paragraph 4.3.1 the wastepaper basket shall contain the fire; shall not melt or loose its shape; and shall not spill the contents or parts of the basket on the floor. During this fire test, the sheets of paper underneath the wastepaper basket shall not ignite."

PAGE 3

Paragraph 4.2.2.1, delete entire paragraph and substitute the following:

"4.2.2.1 Testing of end item. A random sample of baskets shall be taken from each lot, for each test, and shall be tested as specified in paragraphs 4.3.1, 4.3.2 and 4.3.3. The inspection level shall be S-1, and the acceptable quality level (AQL) shall be 4.0."

PAGE 4

Paragraph 4.3.1, delete entire paragraph and substitute the following:

"4.3.1 Flammability test. Testing shall be performed in a draft-free area away from any wall or other obstruction. Place two sheets of newspaper flat on a concrete floor, and place sample wastepaper basket in the center of the newspaper. Fill the wastepaper basket to the rim with wadded combustible paper consisting of approximately equal amounts of intermingled carbon paper, writing paper and newspaper, and three empty 1-pint milk cartons of the standard retail variety, having a protective wax or plastic coating. The bulk density of the combustible material, including the cartons, shall be not less than 12 ounces per cubic foot of the wastepaper basket. Ignite the paper and permit it to burn naturally. After the fire has completely extinguished itself, examine the basket to insure that the basket meets the requirements of 3.3.1.
