L-S-1805
INT. AMENDMENT-1
October 14, 1975

INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

DRY TRANSFER SHEETS

This interim amendment was developed by the General Services Administration, Federal Supply Service, Washington, DC 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification L-S-1805, dated July 1, 1974.

PAGE 2

3.2.4 Delete in its entirety and substitute the following:

"3.2.4 Printing. The following characters shall constitute a set and shall be printed on one or more carrier sheets: Capital and lower case letters of the alphabet, numerals 1 through 9 and 0, and punctuation marks. Character frequency shall be in accordance with the manufacturer's commercial practice. Character spacing shall be uniform and sufficient to prevent transfer of more than one character at a time when transferring."

3.4 Delete in its entirety and substitute the following:

"3.4 Identification marking. Each dry transfer sheet shall be marked with the manufacturer's name or trademark, type style, and point size.
