INTERIM AMENDMENT
to
FEDERAL SPECIFICATION

FEED, DRY, FOR DOGS

This interim amendment was developed by the U. S. Army Natick Laboratories (GL), Natick, Massachusetts, 01760, based on currently available technical information. It is recommended that Federal Agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above. The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification N-F-170E dated April 22, 1968.

PAGE 10

Paragraph 3.3.1. Delete and substitute:

"3.3.1 Acceptability and nutritional adequacy shall be determined by feeding exclusively once a day at a rate of not less than 35 calories per pound body weight to five dogs for 19 days. Weight shall be recorded for each dog daily. The dogs shall be healthy, well-conditioned, working German Shepherds, weighing a minimum of 60 pounds. The dogs must have been on full feed prior to the beginning of the test. Failure of one or more dogs to eat more than 60 percent, on a dry weight basis, of an individual feeding during the last 5 days of the period, loss by any dog of more than 3 percent of the original body weight at the end of the 19 day period, or loss by any dog of more than 10 percent of the original body weight at any time during the 19 day period shall be considered a nonacceptance.

"3.3.1.1 Texture or hardness requirement (applicable to composition 1 only). The finished product shall comply with the water absorption test as specified in 4.3.4."

Table II, column five. Delete "Retained on U. S. #5/8" and substitute "Retained on U. S. #1/2".

PAGE 11

Table III, column 3, opposite "Crude protein". Delete "22.0" under Minimum value for composition 2, and substitute "20.0".

PAGE 13

Paragraph 4.2.6.1. Delete paragraph title and substitute: "Component and material inspection."

PAGE 14

Paragraph 4.2.6.2, line 5. Delete "omposition" and substitute "composition".

PAGE 15

Table V. Delete minor defect 203.

PAGE 16

Paragraph 4.2.6.3.2. Delete last sentence and substitute: "Weight of dog shall be recorded to the nearest pound, weight of product to the nearest ounce. One or more nonacceptances shall be considered a failure to meet the acceptability and nutritional adequacy requirements and shall be cause for rejection of the lot."

PAGE 17

Paragraph 4.2.6.3.4, lines 6 through 9. Delete the second and third sentences and substitute: "In addition to the defects pertinent to the sack manufacturer's identification and IRT markings, the following defect shall be applicable to those markings on the sack required to conform to MIL-STD-129: missing, incorrect or illegible."

Paragraph 4.2.6.4, line 2. Delete "4.2" and substitute: "the requirements of table III. Procedures for testing shall be in accordance with 4.3".

Lines 6 through 8. Delete the last two sentences.

Add the following new paragraph:

"4.2.6.4.1 Sampling procedures and acceptance criteria for testing of finished product. The finished product shall be tested as specified in 3.3.1.1. Procedures for testing shall be in accordance with 4.3.4. The sample unit for testing shall be 2 ounces of product selected from a primary container. Lot size shall be expressed in terms of the number of primary containers. The sample size shall be the number of sample units indicated by inspection level S-1. Failure of one or more of the sample units to pass the water absorption test shall be cause for rejection of the lot."

PAGE 20

Add the following new paragraph:

"4.3.4 Water absorption test. The product shall be rehydrated in an excess of water at a temperature of 70° F. to 80° F. for 1 hour and drained. A defective sample unit is a unit which, after draining, more than 50 percent of the pieces in the sample unit will not break up or disintegrate when subjected to pressure (by hand) from a hard object, such as the flat side of a table knife blade or a table fork. Fully moisture laden (spongy) pieces shall be acceptable".

Paragraph 5.1.1.2, line 4. Delete "0.0011" and substitute "0.00075".

Paragraph 5.2.1.1, lines 3 through 9. Delete and substitute: "sack, fabricated and closed in accordance with type I, class 2, style B, or type II, style A, construction 4 or 4x, MBI, of UU-S-48. The outer surface of the sack shall be insect-resistant treated in accordance with MIL-T-21330."

PAGE 21

Paragraph 5.2.1.1.1, line 2. Delete "0.001" and substitute "0.00075".

Paragraph 5.2.1.2.1, line 4. Delete "4.3.4" and substitute "4.3.3".

Paragraphs 5.3 through 5.3.1.1. Delete and substitute:

"5.3 Unit loads (military agencies). The product, packed as specified in 5.2, shall be arranged in unit loads in accordance with MIL-L-35078 for the type and class of load specified (see 6.1)."

PAGES 21 and 22

Paragraphs 5.4 through 5.4.2.1. Delete and substitute:

"5.4 Marking of shipping containers.

"5.4.1 Civil agencies, shipping containers. Shipping containers shall be marked in accordance with Fed. Std. No. 123 and the Federal Food, Drug and Cosmetic Act and Regulations Promulgated Thereunder. In addition, the marking shall include crude protein, fat, fiber, ash and moisture content, caloric value per ounce, and instructions for feeding.

"5.4.2 Military agencies.
