INCH-POUND

MIL-I-63163 (AR)
AMENDMENT 1
10 September 1989

MILITARY SPECIFICATION

INSULATOR, BULKHEAD
M753 8 INCH PROJECTILE

This amendment forms a part of Military Specification MIL-I-63163 (AR) dated 25 June 1982 and is approved for use within the U.S. Army Armament Munition and Chemical Command and is available for use by all Departments and Agencies of the Department of Defense.

PAGE 1

2.1.1 Change specifications as follows:

Delete: "PPP-T-42 Tape, Packaging/Marking, Paper"

PAGE 15

5.1 Delete and substitute:

"5.1 Packaging,packing, and marking. Each insulator shall be individually wrapped in chemically neutral wrapping paper meeting the requirements of MIL-P-17667 and secured with pressure sensitive adhesive tape. The individual insulators shall then be fully overwrapped with at least one layer of cellulosic cushioning material meeting the requirements of FED-SPEC-PPP-C-843 and secured with pressure sensitive adhesive tape. Five individually wrapped insulators shall then be placed pin-wheel fashion with a sixth in the center in metal shipping drum 9282999-70. Successive layers of six insulators each shall be placed in the drum until a total quantity of seventy-two items has been reached. Additional cellulosic cushioning shall be added over and between layers to provide a tight pack. The cover of the metal shipping drum shall then be installed and sealed in accordance with 8806652. Shipping drums shall be marked in accordance with dwg. 8806652.
