MILITARY SPECIFICATION

PROTECTORS, ELECTRICAL COMMUNICATION CIRCUITS

GENERAL SPECIFICATION FOR

This amendment forms a part of Military Specification MIL-P-55624, dated 15 November 1971, and is approved for use by all Departments and Agencies of the Department of Defense.

Page 7

Following 3.22.1, add new paragraph:

"3.22.2 Underwriters' Listing Mark. All protectors and fuses furnished in accordance with this specification shall have the listing mark such that it is visible when the item is in normal service".

Page 8

4.3, delete 4.3 and table I and substitute:

"4.3 Materials inspection. Materials inspection shall consist of certification supported by verifying data that the materials are as specified (see 3.4) or that they meet Underwriters' Laboratories (UL497) requirements".

4.4, after "MIL-STD-202" add ", or as specified in Underwriters' Standard UL497."

4.5, delete and substitute:

"4.5 Qualification inspection. Qualification may be obtained by either of the following:

(a) By testing the protector in accordance with 4.5.2.
(b) By having Underwriters' Laboratories listing, per UL497. Manufacturers electing this option shall submit a letter of certification to the qualifying activity listing the Underwriters' file number, the government part number, and the manufacturers' part for each protector, arrester or fuse for which qualification is desired".

4.5.4, add the following to the title "(see 4.5 (a))".

Following 4.5.4, add new paragraph:

"4.5.4.1 Retention of qualification (see 4.5 (b)). Those suppliers that used the Underwriters' Laboratories Listing Mark to obtain qualification shall submit certification that the qualified protectors retain the UL Listing Mark, at 12-month intervals, to the qualifying activity. The initial reporting date shall be established by the qualifying activity.

Failure to submit the above within 30 days after the end of each 12-month period may result in loss of qualification for the product. Suppliers shall notify the qualifying activity immediately of inspection data that indicates failure of the product to meet the requirements of UL497
