MILITARY SPECIFICATION

AREA PREDICTOR, RADIOLOGICAL FALLOUT, ABC-M5A2

This amendment forms a part of MIL-A-51356A(EA), dated 25 February 1987, and is approved for use within the U.S. Army Chemical Research, Development and Engineering Center, Department of the Army, and is available for use by all Departments and Agencies of the Department of Defense.

PAGE 4

4.3.2:

Line 1: After "The" insert "packaged".

Line 4: Add the following to the end of the paragraph:

"Packaged sample area predictors shall be examined in accordance with the classification of defects (4.4.3.1(b)). After completion of the packaging inspection, the sample area predictors shall then be examined in accordance with the classification of defects (4.4.3.1(a)).

4.3.3, line 1: After "The" insert "packaged".

4.4.2, line 1: Delete "Sampling shall be" and substitute "Sampling for examination and test of item, and the packaging thereof, shall be".

4.4.3.1:

Line 1: After "Sample" insert "packaged".

Line 2: Delete "and the level A packaging".

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.
