Para. 3.1 - Delete and substitute the following:

"3.1 First article - The gage furnished under this specification shall be a product which has been inspected and passed the first article inspection specified herein."

Page 5

Para 4.1(a) - Delete and substitute the following:

"a. First article inspection - First article inspection consists of examinations and tests performed on samples, which are representative of the production item after award of a contract to determine that the production item conforms to the requirements of this specification."

Paras. 4..2, 4.2.1 and 4.2.2 - Delete and substitute the following:

"4.2, First article inspection - First article inspection shall consist of all the examinations and tests of this specification.

4.2.1 First article samples - Unless otherwise specified, as soon as practicable, after the award of the contract or order, the manufacturer shall submit two gages. The samples shall be representative of the construction, workmanship, components, and materials to be used during production. When a manufacturer is in continuous production of these units from contract to contract, submission of further first article samples on the new contract may be waived at the discretion of the

procuring activity. Approval of the first article samples or the waiving of first article inspection does not preclude the requirements of submitting to the quality conformance inspection. The first article inspection samples shall be furnished to the Government as directed by the contracting officer.

4.2.1.1 Upon completion of the first article inspection, all the applicable inspection reports and when applicable, recommendations and comments pertinent for use in monitoring production will be forwarded to the cognizant Government activity. The approved gages will be returned to the manufacturer for use in monitoring production."
