FEDERAL SPECIFICATION

FEED, DRY, FOR DOGS

This amendment, which forms a part of Federal Specification N-F-170E, dated April 22, 1968, was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

PAGE 2

Paragraph 2.1, under "Federal Specifications". Delete present title of "L-P-378 and substitute: "Plastic Sheet and Strip, Thin Gauge, Polyolefin". Add "PPP-B-601 - Boxes, Wood, Cleated Plywood." Under "Military Specifications". Add: "MIL-B-43666 - Boxes, Shipping Inserts Consolidation."

PAGE 10

Paragraph 3.3.1: Delete and substitute:

3.3.1 Acceptability requirements. Acceptability shall be determined by feeding exclusively once a day at a rate of not less than 35 calories per pound of body weight to five dogs for nineteen days. The dogs shall be healthy, well-conditioned, two to six year old working German Shepherds weighing a minimum of sixty pounds. The dogs must have been on full feed prior to the beginning of the test. Dogs shall get at least one hour of exercise per day during the entire test period. Failure of one or more dogs to eat more than 60 percent, on a dry weight basis, of an individual feeding during the last five days of the test period shall be considered a non-acceptance.

3.3.1.1 Texture or hardness requirement (applicable to composition 1 only). The finished product shall comply with the water absorption test as specified in 4.3.4.

Table II, column five. Delete "Retained on U.S. #5/8" and substitute "Retained on U.S. #1/2".

Add new paragraph:

3.3.2 Nutritional adequacy. Requirements for nutritional adequacy shall be in accordance with the analytical characteristics of table III.

PAGE 13

Paragraph 4.2.6.1: Delete paragraph title and substitute: "Component and material inspection."

PAGE 14

Paragraph 4.2.6.2, line 5. Delete "omposition" and substitute "composition".

Paragraph 4.2.6.3, line 2. Delete "4.2.6.3.4" and substitute "4.2.6.3.9".

PAGE 15

Table V. Delete Minor defect 203. Add new Major B defect: "154 - Not clean".

PAGE 16

Table VIII, footnote "1/". Delete "4.3.4" and substitute "4.3.3."

Paragraph 4.2.6.3.2, paragraph heading. Delete "and nutritional adequacy". Lines 2 and 3, delete "and nutritional adequacy" in both places. Delete last sentence and substitute: "Weight of dog shall be recorded to the nearest pound, weight of product to the nearest ounce. One or more nonacceptances shall be considered a failure to meet the acceptability requirements and shall be cause for rejection of the lot."

PAGE 17

Paragraph 4.2.6.3.4 line 1. Delete "(level A)" and substitute "(levels A and B)". Lines 6 through 9, delete the third sentence and substitute: "In addition to the defects pertinent to the sack manufacturer's identification and IRT markings, the following defect shall be applicable to those markings on the sack required to conform to MIL-STD-129: missing, incorrect or illegible." Line 10, delete "secured" and substitute: "positioned".

Paragraph 4.2.6.3.5, lines 4 and 5. Delete Major (2) defect and substitute: "Major (2) Missing or torn plastic bag." Line 5, add: "Major (3) Liner missing, as applicable." Delete "not heat sealed" and substitute: "not closed as specified."

Paragraph 4.2.6.3.8: Delete and substitute:

4.2.6.3.8 Unit loads. When loads are required to be unitized in accordance with MIL-L-35078, examination of such loads shall be in accordance with that specification.

PAGE 17 (Cont'd)

Add new paragraph:

4.2.6.3.9 Examination for closure, condition, weight limitation and marking of packed boxes. When applicable, examination shall be made of the fully packed wooden boxes (see 5.3.1) for closure, condition, weight limitation and marking. The sample unit for examination shall be one filled and closed box and the sample size shall be the number of sample units indicated by inspection level S-3. Lot size shall be expressed in terms of boxes. The acceptable quality level (AQL) expressed as defects per hundred units shall be 2.5. The following defects are to be included in the examination: (1) closure insecure; (2) box damaged so as to affect product integrity; (3) marked net weight or actual box contents exceeds weight limitation of the pertinent box specification and (4) marking missing, incomplete or illegible.

Paragraph 4.2.6.4, line 2. Delete "4.2" and substitute: "the requirements of table III. Procedures for testing shall be in accordance with 4.3". Lines 6 through 8. Delete the last two sentences.

Add the following new paragraph:

4.2.6.4.1 Testing for texture or hardness. The finished product, as applicable, shall be tested in accordance with the requirements of 3.3.1.1. Procedures for testing shall be in accordance with 4.3.4. The sample unit for testing shall be 2 ounces of product selected from a primary container. Lot size shall be expressed in terms of the number of primary containers. The sample size shall be the number of sample units indicated by inspection level S-1. Failure of one or more of the sample units to pass the water absorption test shall be cause for rejection of the lot.

PAGE 19

Paragraph 4.3.2, lines 1 and 2. Delete "(Composition 1)" in both places.

PAGE 20

Add the following new paragraph:

4.3.4 Water absorption test. The product shall be rehydrated in an excess of water at a temperature of 70°F. to 80°F. for 1 hour and drained. A defective sample unit is a unit which, after draining, more than 50 percent of the pieces in the sample unit will not break up or disintegrate when subjected to pressure (by hand) from a hard object, such as the flat side of a table knife blade or a table fork. Fully moisture laden (spongy) pieces shall be acceptable

PAGE 20 (Cont'd)

Paragraph 5.1.1.2, line 4. Delete "0.0011" and substitute "0.00075".

Paragraph 5.2.1.1, lines 3 through 9. Delete and substitute: "sack, fabricated and closed in accordance with type I, class 2, style B, or type II, style A, construction 4 or 4x, MBI, of UU-S-48. The outer surface of the sack shall be insect-resistant treated in accordance with MIL-T-21330."

PAGE 21

Paragraph 5.2.1.1.1, line 2. Delete "0.001" and substitute "0.00075".

Paragraph 5.2.1.2.1, line 2. Delete "III" and substitute: "II, class 2". Line 3, add new second sentence: "Alternatively the pail shall conform to type II, class 2 (6-gallon capacity) of PPP-B-704." Line 4, delete "4.3.4" and substitute "4.3.3".

Paragraph 5.2.1.2.2, lines 4 and 5. Delete the second sentence.

Paragraph 5.2.2: Delete and substitute:

5.2.2 Level B.

5.2.2.1 Composition 1 product. Fifty pounds of composition 1 product shall be packed into a multiwall paper shipping sack, fabricated and closed in accordance with type I, class 2, style B, or type II style A, construction 4 or 4x of UU-S-48. The outer surface of the sack shall be insect-resistant treated in accordance with MIL-T-21330.

5.2.2.2 Composition 2 product.

5.2.2.2.1 Military agencies. Composition 2 product packed in a 0.005 inch thick polyethylene bag as specified in 5.2.1.2.2 shall be packed into a snug-fitting fiberboard box with a liner constructed and closed in accordance with style RSC-L, V3c, V3s or V4s of PPP-B-636.

5.2.2.2.2 Civil agencies. Composition 2 product shall be packed in a snug fitting fiberboard box, constructed and closed in accordance with style RSC, type CF or SF, class domestic, method II closure of PPP-B-636. The box shall have a plastic liner which is sealed or closed with a paper or plastic coated wire tie. The box shall be closed in accordance with the box specification.

Paragraphs 5.3, 5.3.1, and 5.3.1.1: Delete and substitute:

5.3 Unit loads. When specified (see 6.1) the product packed as specified in 5.2, shall be arranged in unit loads in accordance with MIL-L-35078 for the type and class of load specified.

PAGE 21 (Cont'd)

Add new paragraph:

5.3.1 When specified (see 6.1) the product, packed as specified in 5.2 shall be assembled into boxes conforming to PPP-B-601 or MIL-B-43666 type I, as specified, in quantities which do not exceed the weight limitations of the box specification.

PAGES 21 and 22

Paragraphs 5.4 through 5.4.2.1: Delete and substitute:

5.4 Marking of shipping containers.

5.4.1 Civil agencies, shipping containers. Shipping containers shall be marked in accordance with FED-STD-123 and the Federal Food, Drug and Cosmetic Act and Regulations Promulgated Thereunder. In addition, the marking shall include crude protein, fat, fiber, ash and moisture content, caloric value per ounce, and instructions for feeding.

5.4.2 Military agencies.

5.4.2.1 Shipping containers. Shipping containers shall be marked in accordance with MIL-STD-129 except that day, month, and year of pack shall be included and the Federal Food, Drug and Cosmetic Act and Regulations Promulgated Thereunder. In addition, the marking shall include crude protein, fat, fiber, ash and moisture content, caloric value per ounce, and instructions for feeding. The multiwall paper shipping sacks shall be marked in accordance with UU-S-48.

Paragraph 5.4.4 Renumber as 5.4.2.2.

Paragraph 6.1, line 12. Delete "(g)" and substitute "(h)" and add the following new subparagraph:

(g) Type and class of unit load required (see 5.3).

Add new subparagraph:

(i) How unit loads are to be furnished (see 5.3 and 5.3.1).
