INCH-POUND

MIL-C-22442D
AMENDMENT 1
24 MAY 1991

MILITARY SPECIFICATION

CABLE ASSEMBLIES, RADIO FREQUENCY (AIRCRAFT AUDIO) GENERAL SPECIFICATION FOR

This amendment forms a part of MIL-C-22442D, dated 29 July 1988, and is approved for use by all Departments and Agencies of the Department of Defense.

PAGE 2

Delete the following Military Standard:

DOD-STD-2000 General purpose Soldering Requirements for Electrical and Electronic Assemblies

Add the following Military Standard:

MIL-STD-2000 Standard Requirements for Soldered Electrical and Electronic Assemblies

PAGE 4

Insert the following paragraph:

3.4.6.1 Molded smooth black elastomer materials. Molding materials shall be made from the same materials as the cordage jacketing materials, and shall provide a good bond with the cable jacket. Each cable submission to the Government for First Article or Qualification testing, shall include a certification/data report specifing the molding material composition. Procuction items shall be identical in all respects to those submitted to the Government for approval, unless otherwise approved by the Government in writing.

PAGE 5

3.4.24 Soldering Change to read:

3.4.24 Soldering Soldering shall be in accordance with the soldering requirements of MIL-STD-2000

Insert the following paragraph:

4.5.1.2 Noncompliance. No failures shall be allowed in Group III inspection. If a sample unit fails to pass Group III inspection, the supplier shall take corrective action on the material or process or both, as warranted, and on all units of production which can be corrected and which were manufactured under essentially the same conditions, with essentially the same materials, processes, etc., and which are considered subject to the same failure. Acceptance of the procuct shall be discontinued until corrective action, acceptable to the Government has been taken. After the the corrective action has been taken, Group III inspection shall be repeated on additional sample units (all inspections or the inspection that the original sample failed, at the option of the Government). Group II inspection may be reinstituted, however, final acceptance shall be withheld until the Group III reinspection has shown that the corrective action was successful. In the event of a failure after reinspection, information concerning the failure and the corrective action taken shall be furnished to the Qualifying activity.
