FEDERAL SPECIFICATION

PAN, CAKE, ROUND, (TIN PLATED)

This specification was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

1. SCOPE

1.1 This specification covers one type of round, tin plated cake pan having an outside top diameter of 9 inches.

2. APPLICABLE DOCUMENTS

2.1 The following documents, of the issue in effect on date of invitation for bids or request for proposal, form a part of this specification to the extent specified herein:

Federal Specifications:

QQ-T-425 - Tinplate (Hot Dip and Electrolytic).
UU-P-553 - Paper, Wrapping Tissue.
PPP-B-566 - Boxes, Folding, Paperboard.
PPP-B-585 - Boxes, Wood, Wirebound.
PPP-B-591 - Boxes, Fiberboard, Wood-Cleated.
PPP-B-601 - Boxes, Wood, Cleated-Plywood.
PPP-B-621 - Boxes, Wood, Nailed and Lock-Corner.
PPP-B-636 - Boxes, Shipping, Fiberboard.
PPP-B-640 - Boxes, Fiberboard, Corrugated, Triple-Wall.
PPP-B-665 - Boxes, Paperboard, Metal Stayed (Including Stay Material).
PPP-B-676 - Boxes, Setup.

Federal Standard:

Fed. Std. No. 123 - Marking for Domestic Shipment (Civil Agencies).

(Activities outside the Federal Government may obtain copies of Federal Specifications, Standards, and Handbooks as outlined under General Information in the Index of Federal Specifications and Standards and at the prices indicated in the Index. The Index, which includes cumulative monthly supplements as issued, is for sale on a subscription basis by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

(Single copies of this specification and other Federal Specifications required by activities outside the Federal Government for bidding purposes are available without charge from Business Service Centers at the General Services Administration Regional Offices in Boston, New York, Washington, DC, Atlanta, Chicago, Kansas City, MO, Fort Worth, Denver, San Francisco, Los Angeles, and Seattle, WA.

(Federal Government activities may obtain copies of Federal Specifications, Standards, and Handbooks and the Index of Federal Specifications and Standards from established distribution points in their agencies.)

Military Specification:

MIL-P-17667 - Paper, Wrapping, Chemically Neutral, (Non-corrosive).

FSC 7330

Military Standards:

MIL-STD-105 - Sampling Procedures and Tables for Inspection by Attributes.
MIL-STD-129 - Marking for Shipment and Storage.

(Copies of Military Specifications and Standards required by suppliers in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

2.2 Other publications. The following documents form a part of this specification to the extent specified herein. Unless a specific issue is identified, the issue in effect on date of invitation for bids or request for proposal shall apply.

National Motor Freight Traffic Association, Inc., Agent:

National Motor Freight Classification.

(Application for copies should be addressed to the American Trucking Association, Inc., Tariff Order Section, 1616 P Street, N.W., Washington, DC 20036.)

Uniform Classification Committee, Agent:

Uniform Freight Classification.

(Application for copies should be addressed to the Uniform Classification Committee, Room 1106, 222 South Riverside Plaza, Chicago, IL 60606.)

(Technical society and technical association specifications and standards are generally available for reference from libraries. They are also distributed among technical groups and using Federal agencies.)

3. REQUIREMENTS

3.1 Material. Pans shall be formed from tinplate conforming to base-metal steel type L, temper T-2, class 50 electrolytic desingation, bright finish in QQ-T-425. Tinplate shall have a minimum of 90 pounds per base box.

3.2 Construction. Pan shall be of one-piece construction pressed to shape. The top edge of the pan shall be turned outward, forming a lip 5/16 inch wide + 1/8 inch, and the edge of the lip shall have a tightly rolled round bead. The bead shall be so formed as to minimize the collection of foreign material as well as to serve as a reinforcement and protection of the edge of the pan.

3.3 Dimensions. Pan shall conform to the dimensions specified in table I.

TABLE I. Dimensions

	Inches
Thickness of material.....	0.010 ± 0.0015
Outside diameter of pan at top.....	9 ± 1/8
Inside diameter of pan at top.....	8-1/2 ± 1/8
Outside diameter of pan at bottom.....	8 ± 1/8
Vertical depth of pan, outside.....	1-5/16 ± 1/8

3.4 Marking for identification. Each pan shall be marked on the outside bottom in a plain and permanent manner with the manufacturer's name, trade name, or trademark of such known character that the source of manufacture may be readily identified.

3.5 Workmanship. Pans shall be free from excessive surface scratches, dents, sharp edges, flaked plating, or any other defect which may affect appearance or serviceability.

4. QUALITY ASSURANCE PROVISIONS

4.1 Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified, the supplier may utilize his own facilities or any commercial laboratory acceptable to the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure that supplies and services conform to prescribed requirements.

Check the source to verify that this is the current version before use.

4.2 Sampling.

4.2.1 Lot. Unless otherwise specified (see 6.2), a lot shall consist of all pans submitted for inspection at the same time.

4.2.2 Visual and dimensional examination of end item. Sampling for this examination shall be in accordance with level S-3 in MIL-STD-105.

4.3 Inspection.

4.3.1 End Item. Pans selected in accordance with 4.2.2 shall be examined for defects listed in table II. The acceptable quality level (AQL) for minor defects shall be 4.0 percent defective. Any major defect shall constitute cause for rejection of the lot.

TABLE II. Classification of defects, end item

Defects	Major	Minor
Dimensions incorrect	X	
Construction not as required	X	
Identification marking missing, illegible	X	
Tinplate coating not adherent or scratched through to base metal	X	
Seams in metal or excessive die marks	X	
Excessive scratches, dents, sharp edges	X	
Flaked plating	X	
Excessive oil or foreign matter		X
Defects affecting apperance or serviceability	X	
Defects not affecting appearance or serviceability		X

4.3.2 Inspection of preparation for delivery requirements. An inspection shall be made to determine that packaging, packing, and marking comply with the requirements of section 5 of this specification Defects shall be scored in accordance with table III. For examination of contents the sample unit shall be one shipping container fully prepared for delivery selected at random just prior to the closing operations. Defects of closure listed shall be examined on shipping containers fully prepared for delivery. The lot size shall be the number of shipping containers in the end item inspection lot. The inspection level shall be S-3 and the AQL shall be 4.0 defects per hundred units.

TABLE III. Classification of preparation for delivery defects

Examine	Defects
Marking (exterior and interior)	Omitted; incorrect; illegible; of improper size, location, sequence, or method of application.
Materials	Any component missing or damaged.
Workmanship	Inadequate application of components such as incomplete closure of container flaps; loose strapping; bulging or distortion of container.

5. PREPARATION FOR DELIVERY

5.1 Packaging. Packaging shall be level A, B, or C as specified (see 6.2).

5.1.1 Level A. Unless otherwise specified 12 pans shall be nested together, either individually wrapped or separated by slip sheets of minimum 15-pound paper conforming to type II of MIL-P-17667, inserted between the pans. The pans shall be packaged in a close-fitting box conforming to PPP-B-636, V3c. The box shall be closed in accordance with the appendix to the box specification.

5.1.2 Level B. Twelve pans shall be nested together, either individually wrapped or separated by slip sheets of paper conforming to UU-P-553, type II, class 1, inserted between the pans. The pans shall be packaged in a close-fitting box conforming to PPP-B-566, PPP-B-665, or PPP-B-676. The box shall be closed in accordance with the applicable box specification or appendix thereto.

Check the source to verify that this is the currentversion before use.

5.1.3 Level C. The pans shall be packaged in accordance with the suppliers commercial practice.

5.2 Packing. Packing shall be level A, B, or C, as specified (see 6.2).

5.2.1 Level A. The pans shall be packed in close-fitting boxes conforming to PPP-B-585, class 3; PPP-B-591, class II; PPP-B-601, overseas type; PPP-B-621, class 2; PPP-B-636, class weather-resistant or PPP-B-640, class 2. The fiberboard boxes shall be closed in accordance with the appendix to the box specification. The gross weight of the triple wall fiberboard box and the wood boxes shall not exceed approximately 200 pounds. The gross weight of the PPP-B-636 fiberboard box shall not exceed the weight limitations of the box specification. Strapping shall be in accordance with the apeendix to the applicable box specification.

5.2.2 Level B. The pans shall be packed in a close-fitting box conforming to PPP-B-636, class domestic, style RSC. The box shall be closed in accordance with the appendix to the box specification.

5.2.3 Level C. The pans shall be packed to insure carrier acceptance and safe delivery at destination in containers complying with Uniform Freight Classification rules or National Motor Freight Classification rules, as applicable.

5.3 Marking.

5.3.1 Civil agencies. In addition to markings required by the contract or order, the packages and shipping containers shall be marked in accordance with Fed. Std. No. 123.

5.3.2 Military activities. In addition to markings required by the contract or order, the packages and shipping containers shall be marked in accordance with MIL-STD-129.

6. NOTES

6.1 Intended use. The cake pans covered by this specification are intended for use in kitchens and bakeries.

6.2 Ordering data. Purchasers should select the preferred options permitted herein and include the following information in procurement documents:

(a) Title, number, and date of this specification.
(b) Size of lot, if different from 4.2.1.
(c) Level of packaging and packing required (see 5.1 and 5.2).

Preparing activity:

GSA-FSS

Civil Agency Coordinating Activities:

GSA-FSS
VA-DMS

Orders for this publication are to be placed with the General Services Administration, acting as an agent for the Superintendent of Documents. See section 2 of this specification to obtain extra copies and other documents referenced herein. Price 10 cents each.
