DATA ITEM DESCRIPTION
Title: INFORMATION SECURITY (IS) PLAN OF ACTION & MILESTONES (POA&M)

Number: DI-MGMT-82190
AMSC Number: N9907
DTIC Applicable: N/A
Preparing Activity: SH
Applicable Forms: N/A

Approval Date: 20180322
Limitation: N/A
GIDEP Applicable: N/A
Project Number: MGMT-2018-020

Use/Relationship: The IS Posture POA&M provides information on the current state of the network security infrastructure. It provides information needed to understand and improve the security posture.

This data item description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

DoDI 8510.1 Risk Management Framework (RMF) for DoD Information Technology (IT) is available at: http://www.esd.whs.mil/Directives/issuances/dodi/

Requirements:

1. **Format**. The IS Posture POA&M shall follow the enterprise Mission Assurance Support System (eMASS) System Level Microsoft Excel format.

2. **Content**. The IS Posture POA&M shall include a network POA&M that contains the following:

2.1. POA&M Header

a) Date initiated
b) Date last updated
c) Component Name/ Information System Owner
d) Department of Defense (DoD) Information Technology (IT) registration number
e) System/Project Name
f) System Identification
g) IS Type/System Record Type
h) POC phone number
i) POC e-mail
j) Office of Management and Budget (OMB) Project Identification
k) Security Costs

2.2. Weakness. Weaknesses shall be specified consecutively and numerically. This section shall include the following:

a) Specific Security Weakness Identified via DoD tools or Information Assurance Control (IAC) Tests.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T11:00Z
Check the source to verify that this is the current version before use.

b) Security Actions and Administrative Actions (e.g., finish Systems Requirements Review (SRR) tests, and register system in Department of Defense Information Technology Portfolio Registration-Department of the Navy (DITPR-DON))
c) If not applicable, then Not Applicable (NA) shall be included

2.3. The severity Category (CAT). The severity CAT is the residual risk and shall be specified as CAT I, II, III. If not applicable, this shall be the original Defense Information Systems Agency (DISA) Severity and identified as "raw".

2.4. Information Assurance Control (IAC) and Impact Code. This section shall include the following:

a) Information Assurance (IA) control assigned to the finding
b) Impact code assigned to the IA control. Note that the impact code shall not change.

2.5. POC. Identify Office/Organization responsible for resolving the security weakness.

2.6. Resources Required

a) Funding
b) Manpower
c) Material
d) Include NA for CAT III weaknesses

2.7. Estimated Completion Date. This shall include:
a) Date when the weakness is scheduled to be resolved. Status column shall identify completion date updates (e.g., Not Okay = TBD, FY10, 3Q, etc)
b) If risks are accepted by Office of the Designating Authority (ODAA), then NA shall be specified.

2.8. Milestones with Completion Date

a) Identify specific requirements to correct weaknesses
b) Column 8 (Milestone change) shall identify changes to any milestones
c) If risks are accepted by ODAA, then NA shall be specified.

2.9. Milestone Changes

a) Updates to the milestones/Completion date shall be included
b) If risks are accepted by ODAA, then NA shall be specified.

2.10. Source Identifying Weakness

a) This shall identify the source of the weakness (i.e., Security Test Implementation Guide (STIG), Security Checklists, Retina, gold disk, etc.)
b) This shall identify the weakness type.
c) Include weakness identification (i.e., STIG ID, Vulnerability Management System Identification (VMS ID), Audit ID, etc.).

Check the source to verify that this is the current version before use.

2.11. Status

a) Shall specify status as “ongoing”, “completed, or “risk accepted”, “not valid – pending”, “TBD”, etc.
b) Adequate explanation in the comments column shall be included. Completion date shall be included if status is “completed”.
c) “Risk accepted” status shall be identified only after the risk is accepted by the ODAA.
d) Date of acceptance shall be specified.

2.12. Comments

a) Necessary information, justification and mitigation shall be included.
b) This shall also contain justification for NA IA controls.

End of DI-MGMT-82190
