DATA ITEM DESCRIPTION

Form Approved
OMB No 0704-0188

2 TITLE	1 IDENTIFICATION NUMBER
INTEGRATED ALLOWANCE DOCUMENT (IAD)	DI-ILSS-80957

3 DESCRIPTION/PURPOSE

3.1 The IAD is the ship's loading coordinated shipboard allowance list (COSAL) with appropriate allowance appendix pages (AAPs) and AAP data incorporated. The purpose of the IAD is to provide the ship with a single complete allowance document which includes support for the entire ship's configuration. The IAD serves as an interim allowance document until replaced by a government produced integrated COSAL (I-COSAL) or new COSAL publication.

4 APPROVAL DATE (YYMMDD)	5 OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a DTIC APPLICABLE	6b GIDEP APPLICABLE
900227	SH/CEL-MS		

7 APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description (DID) contains the format and content instructions for preparation of the integrated allowance document required by 5.6 of MIL-STD 1339.

7.2 This DID is applicable to ship acquisition, conversion, and modernization programs.

7.3 This DID supersedes DI-V-20211A.

8 APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		N4907

10 PREPARATION INSTRUCTIONS

10.1 General. The IAD shall consist of the following parts:

a. Part I - Summary of effective allowance parts/equipage lists (SOEAPL) (Index)

Section A (nomenclature sequence)
Section B (service application sequence)
Section C (allowance parts list (APL) or allowance equipage list (AEL) to equipment identification code (EIC) to work breakdown structure (WBS) or functional group code (FGC)
Section D (EIC to APL or AEL)
Section E (WBS to APL or AEL)

b. Part II -

Section A (APL and APL-AAP)
Section B (electronics, ordnance fire control microfiche furnished with COSAL)
Section C (AEL and AEL-AAP)

c. Part III -

Section A - Storeroom item (SRI) (integrated stock list)
Section B - Operating space item (OSI) (integrated OSI list)
Section D - alternate number cross reference to stock number list

11 DISTRIBUTION STATEMENT

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

10. PREPARATION INSTRUCTIONS (Cont'd)

Preparation instructions for each part of the IAD are individually addressed in the following subparagraphs.

10.1.1 Part I - IAD summary of effective allowance parts/equipage lists (SOEAPL). Type I, Type II, and Type III AAP identification numbers shall be added to the load COSAL SOEAPL in the proper sequence. Type III AAP numbers shall appear at the start of their respective category of APL or AELs. The sequence of numbers in the SOEAPL shall correspond to the sequence of APLs, AELs, and APL or AEL-AAP pages in Part II of the IAD. Where the magnitude of changes cannot be incorporated neatly by pen and ink change, a supplement to the SOEAPL may be prepared and included with the existing SOEAPL in lieu of incorporating pen and ink changes..

10.1.2 Part I - A and B index. The GF load COSAL index, Sections A and B, shall be used as the basis for development of the IAD index, Sections A and B. Index entries shall be manually added to the published index for all AAPs. In addition, all missing or incorrect entries shall be added or corrected by the contractor. All entries made shall be typed or printed. Each index entry shall consist of the following:

a. Equipment or component military essentiality code (MEC).

b. Noun name and partial characteristic description of each APL or AEL-AAP.

c. APL or AEL-AAP identification number.

d. Quantity of each APL or APL-AAP per service application or column number of the applicable AEL or AEL-AAP.

e. Applicable allowance support code.

f. Each service or major shipboard function in which the equipment, component, or equipage operates or performs a service.

10.1.2.1 Where the magnitude of changes cannot be incorporated neatly, a supplement to A and B indexes may be prepared and included with the existing A and B indexes in lieu of incorporating pen and ink changes.

10.1.3 Part I - sections C, D, and E. Appropriate entries by the contractor shall be typed or printed in these sections.

10.1.4 Part II - sections A and C. AAPs shall be inserted in the appropriate sections. Nonstandard APL or AEL-AAP numbered pages shall be inserted in the front of their respective numerical categories, e.g., the first five (5) digits of the AAP number.

10.1.5 Part II - section B. The electronics and ordnance fire control data which is provided to the ship shall consist of microfiche cards provided with the COSAL. These cards provide circuit symbol numbers or part numbers and other technical data. No additions or modifications to the microfiche shall be made. (This section may not be provided with load COSAL in which case it shall not be a part of the required IAD).

10.1.6 Part III - section A. Part III, Section A is an Integrated Stock List (ISL) and shall be printed in standard COSAL stock number sequence list (SNSL) format. The ISL shall list the ship's total SRI allowance contained in the final updated BAF-SRI. The following data elements shall used:

Check the source to verify that this is the current version before use.

10. PREPARATION INSTRUCTIONS (Cont'd)

a. Stock number or other identifying number
b. Item name
c. APL-AAP number (master and trailers)
d. Unit of issue
e. Allowance quantity (total factored quantity)
f. Unit price
g. Derivation code
h. Locations
i. Quantity on hand

10.1.6.1 For each stock number, the following information shall be printed on the first line: the cognizance symbol, the NSN or navy item control number (NICN), APL or APL-AAP number, unit of issue, factored allowance quantity, unit price, and derivation code. When a stock number is intended for use or repair purposes on (or in) more than one shipboard equipment or component, the additional APL or APL-AAP number shall be listed in ascending order on each succeeding line. For these additional applications, the only data that shall be listed is the APL or APL-AAP number,

10.1.7 Part III - section B. Part III, Section B, is an ISL and shall be printed in standard COSAL SNSL format. The ISL shall list the ship's total COSAL related OSI allowance contained in the final updated BAF-OSI. The following data elements shall be used:

a. Stock number or other identifying number
b. Item name
c. AEL-AAP number (master and trailers)
d. Unit of issue
e. Allowance quantity
f. Unit price

For each line item, the following information shall be printed on the first line: the cognizance symbol, the NSN or NICN or other identifying number as appropriate, AEL-AAP number, unit of issue, allowance quantity for the lead application, and unit price. When a stock number has application to more than one AEL or AAP-AEL, these secondary AEL or AAP-AELs shall be listed in ascending order on each succeeding line. For these additional applications, the only data that shall be listed is the AEL or AEL-AAP number and the quantity allowed by each AEL or AAP-AEL.
