DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

2. TITLE	1. IDENTIFICATION NUMBER
Launch Vehicle Post-Flight Analysis	DI-MISC-80946

3. DESCRIPTION/PURPOSE

3.1 The Launch Vehicle Post-Flight Analysis provides formal results, historical records of launch, and is a basis for recommendations, corrections, and improvements.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC REQUIRED	6b. GIDEP REQUIRED
900223	F/SSD/CLH		

7. APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

7.2 The Launch Vehicle Post-Flight Analysis is applicable to specific R & D programs which do not necessarily lead to full scale development.

7.3 This DID supersedes DI-T-3725A

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		F4894

10. PREPARATION INSTRUCTIONS

10.1 Content and Format. The launch vehicle Post-Flight Analysis shall include a launch event summary and test result comparison and shall be provided in the contractor's format.

10.1.1 Launch Event Summary. The launch event summary shall include:

a. Evaluation of countdown; significant events and recommendations.
b. Ascent trajectory.
c. Support from other agencies.
d. A history of operations performed on the test vehicles from arrival to launch.
e. Technical data to permit comparison with similar flights.

10.1.2 Test Comparison. The comparison of test objectives desired and the performance results attained shall include:

a. Engineering analysis of performance with emphasis on failure items.
b. Inputs from associate contractors when necessary.
c. Human factors evaluation of performance with emphasis on human errors and man-machine anomolies related to operation, maintenance, and safety.

11. DISTRIBUTION STATEMENT

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.
