COMMERCIAL ITEM DESCRIPTION

RETAINER, EYEWEAR

The General Services Administration has authorized the use of this commercial item description.

1. SCOPE. This commercial item description covers eyewear retainers intended to be used by all soldiers wearing prescription or non-prescription eyewear during combat, athletic, and garrison activities.

2. SALIENT CHARACTERISTICS

2.1 Description. The eyewear retainer shall consist of a soft, woven, cloth material having tubular ends that slide over the temples of standard eyewear. There shall be no rigid slides or buckles. Fit and retention shall be accomplished by sliding the ends over the length of the temples.

2.2 Length. The length of the eyewear retainer shall be greater than 15 inches but no longer than 19 inches.

2.3 Color. The color of the eyewear retainer shall be olive green or black.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: Defense Personnel Support Center, Clothing and Textiles Directorate, Attn: DPSC-FQSE, 2800 South 20th Street, Philadelphia, PA 19145-5099.

AMSC N/A FSC 8465

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

a sheet of 30 pound minimum basis weight kraft paper conforming to Grade B of

2.4 Identification markings. The manufacturer's name shall be permanently marked on each headband in characters 1/8 inch high minimum. The markings shall be clearly legible and shall not show smearing, bleeding, or offsetting.

2.5 Instructions. A removable instruction card or tag shall be attached. The instructions shall indicate the proper procedure for attaching and adjusting the eyewear retainer. In addition, a bar-coding element as in 2.5.1 shall be included.

2.5.1 Bar code. The bar coding element shall be a 13 digit national stock number (NSN). The bar code type shall be a medium to high code density and shall be located so that it is completely visible on the item when it is folded and/or packaged as specified and so that it causes no damage to the item.

3. REGULATORY REQUIREMENTS. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

4. QUALITY ASSURANCE PROVISIONS

4.1 Certification. The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this commercial item description; conforms to the producer's own drawings, specifications, standards, and quality assurance practices; and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to the first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

4.2 Market acceptability criteria. The item offered, or a generic equivalent, must have been sold to the commercial market or to the Government for at least two years.

4.3 Warranty. The item offered shall include the standard warranty given to the commercial market beginning with the date of delivery of the individual items.

4.4 Visual examination. Each eyewear retainer shall be examined for the defects listed below.

4.4.1 Defects. Any hole, cut, tear, pull, or fray; color not as specified; any part shaded; any spot or stain; ends of stitching not backstitched or overstitched; thread ends not removed; any material defects or poor workmanship; label missing, incorrect, or illegible; measurement of item not as specified; bar code omitted or not readable by scanner; human-readable interpretation (HRI) omitted or illegible; bar code not visible on folded, packaged item; any items not packaged in accordance with the contract or purchase order.
