COMMERCIAL ITEM DESCRIPTION

T-SHIRT, PHYSICAL CONDITIONING UNIFORM

The General Services Administration has authorized the use of this commercial item description for all Federal agencies.

1. SCOPE. This commercial item description covers the requirements for a T-shirt to be worn by Air Force personnel as part of the Physical Conditioning Uniform.

2. CLASSIFICATION. The T-shirt shall be of one type and class.

3. SALIENT CHARACTERISTICS.

3.1 Description. The T-shirt shall be short sleeved with a high crew neck collar (See Figure I). The sleeves and the bottom of the T-shirt shall be hemmed with a 1 ± 1/4 inch hem. The collar shall be 1 X 1 true or mock rib knit folded and overedge stitched to the T-shirt and shall have the stitching at the back of the neck covered with fabric binding which extends across the shoulder seams, raw edges of binding shall be turned under. The collar shall finish 1 ± 1/8 inch wide. All seams shall be overedged stitched. The words "AIR FORCE" shall be screen

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: Defense Personnel Support Center, Clothing and Textiles Directorate, Attn: DPSC-FQSC, 2800 South 20th Street, Philadelphia, PA 19145-5099.

printed across the front chest of the T-shirt in an arch, positioned as outlined in Table I and in accordance with Figure II. The lettering shall be of the same style as shown in Figure II, except that the letters shall be 2 inches in height. The screen print shall match Navy Blue shade 35048 of FED-STD-595.

TABLE 1. SCREEN PRINT LOCATION, IN INCHES
(Centered below bottom of neckband to top of lettering)

SIZE	XSMALL	SMALL	MEDIUM	LARGE	XLARGE	Tolerance
PLACEMENT OF LOGO	3	3-1/2	4	4-1/2	5	±1/4

3.2 Basic material. The T-shirt shall be fabricated from jersey knit material having 55 ± 5 percent cotton and the remaining percentage polyester. The material shall weigh 5.5 ± 0.5 ounces per square yard, have a minimum of 30 wales per inch and have a minimum of 45 courses per inch when tested in accordance with ASTM D-3887. The material shall have a minimum bursting strength of 75 pounds when tested in accordance with ASTM D-3787 and shall not shrink or elongate more than 10 percent when tested in accordance with AATCC Method 150 using normal washing cycle. The material shall match the standard sample for shade Lt. Heather Grey 466 (see 7.4).

3.2.1 Matching. The color of the finished cloth shall match the standard sample when viewed under filtered tungsten lamps that approximate artificial daylight and having a correlated color temperature of 7500±200K, with illumination of 100±20 foot candles, and shall be a good match to the standard sample under incandescent lamplight at 2300±200K.

3.3 Label. Commercial type label is acceptable except that it shall also have a label with the contract number and NSN. The commercial label shall provide the size, care instructions, and fiber content information.

3.3.1 Label/tag. Each item shall be individually bar-coded with a paper tag for personal clothing items. The paper tag shall be standard bleached sulfate having a basis weight of 100 pounds. The paper used for the tags shall have a smooth finish to accept thermal transfer and direct printing. The tags shall have a hole and shall be attached to each item by a fastener, clearly legible and readable by a scanner. The bar coding element shall be a 13 digit national stock number (NSN). The bar code type shall be a medium to high code density and shall be located so that it is completely visible on the item when it is folded and/or packaged as specified and so that it causes no damage to the item.

3.4 SIZES AND MEASUREMENTS. The T-shirt shall be provided in the following sizes and measurements:

TABLE II. SIZES & MEASUREMENTS

		Tolerance	Extra Small	Small	Medium	Large	Extra Large
1/2 CHEST	A	±1	16	17	19	21	23
LENGTH	B	±1	26	27	28	29	30
NECK OPENING	C	±1	7-1/2	8	8-1/2	9	9-1/2
SLEEVE OVER	D	±1/2	6-1/4	7	7-3/4	8-1/2	9-1/4
SLEEVE OPENING	E	±1/2	5-3/4	6-1/4	6-3/4	7-1/4	7-3/4
ARMHOLE	F	±1/2	7-1/4	8-1/4	9-1/4	10-1/4	11-1/4
SHOULDER	G	±1/2	4	5	6	7	8

A. 1/2 Chest: Measure across chest front from folded edge approximately 3 inches below armhole.
B. Length: Measure from top edge of collar to bottom edge of T-shirt.
C. Neck opening: Grasp neckband at center front and center back, form a straight line but do not stretch collar. Measure across neckband from center front to center back.
D. Sleeve over: Measure from top of sleeve at shoulder seam to end of sleeve hem.
E. Sleeve opening: Measure from folded edge to folded edge when sleeve hem is laid flat.
F. Armhole: Measure from shoulder seam point to underarm in a straight line point to point.
G. Shoulder: Measure across one shoulder from collar seam to sleeve seam.

Note: The above sizes may be abbreviated as XS, S, M, L, and XL.

3.5. Patterns. Commercial patterns shall be used. They shall conform to the design and requirements cited in this commercial item description.

4. REGULATORY REQUIREMENTS. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

Check the source to verify that this is the current version before use.

4.1 Flammability requirements. The basic material shall conform to the rules and regulations of the Flammable Fabrics Act without the application of a flame retardant finish to the material or to the end item.

5. QUALITY ASSURANCE PROVISIONS

5.1 Certification. The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this commercial item description; conforms to the producer's own drawings, specifications, standards, and quality assurance practices; and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to the first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

5.2 Visual examination. The T-shirts shall be examined for the defects fisted in paragraph 5.3.

5.3 Defects. Any hole, cut, tear, color not as specified; thread ends not removed or not trimmed; any component missing or not as specified; seam twisted, puckered, open; needle chew or tight tension; label incorrect or illegible; logo incorrect, illegible or misplaced; measurement or design of T-shirt not as specified.

5.4 Market acceptability. The item offered, or a generic equivalent, must have been sold to the commercial market or to the Government for at least 2 years.

5.5 Warranty. The item offered shall include the standard warranty given to the commercial market beginning with the date of delivery of the individual items.

6. PACKAGING

6.1 Preservation, packing, and marking. The preservation, packing, and marking shall be as specified in the contract or order.

7. NOTES

7.1 Source of Government documents. Copies of military and Federal documents are available from:

Standardization Documents Order Desk
Bldg. 4D
700 Robbins Avenue
Philadelphia, PA 19111-5094
