COMMERCIAL ITEM DESCRIPTION

SHAPE, DAY, MARITIME, DIAMOND

The General Services Administration has authorized the use of this commercial item description as a replacement for MIL-S-29134 for all Federal agencies.

1. Scope. This commercial item description covers the requirements for a collapsible, diamond shaped, day maritime signal for use as displays on ships to warn other vessels to stay clear of operations being conducted, such as: underwater operations, towing, etc.

2. SALIENT CHARACTERISTICS

2.1 General description. The maritime day signal shall be a diamond shape (Figure 1). The diamond shape shall consist of two cones (a cone shall have a base diameter of not less than 24" and a height equal to its diameter) having a common base. The shape shall be fully collapsible with internal framing and shall be able to be suspended from two ends (1" I.D. brass ring & a swivel eye bolt snap, brass with 1" eye) to provide rigid display.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: Defense Personnel Support Center, Clothing and Textiles Directorate, Attn: DPSC-FNS, 2800 South 20th Street, Philadelphia, PA 19145-5099.

AMSC N/A FSC 8345

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

3. Material. The fabric material shall be vinyl coated nylon, 7 ounces/square yard. The color shall be Black, Cable No. 65018 US Army Color Card, Supplement to the 10 Edition Standard Color Reference of America. Seams and stitch type shall conform to ISO 4915. The stitch type shall be 301 or 401 with 6-8 stitches per inch. The seam type shall be 1.01.03 conforming to ISO 4916.

3.1 Grommets. The grommets and washers for the covers shall be plain with brass, bright finish or brass, black chemical finish size 0 or 00.

3.2 Label/tag. Each maritime day signal shall be individually bar-coded with a paper tag. The paper tag shall be standard bleached sulfate having a basis weight of 100 pounds. The paper used for the tags shall have a smooth finish to accept thermal transfer and direct printing. The tags shall have a hole and shall be attached to each item by a fastener, clearly legible and readable by a scanner. The bar coding element shall be a 13 digit national stock number (NSN). The bar code type shall be a medium to high code density and shall be located so that it is completely visible on the item when it is folded and/or packaged as specified and so that it causes no damage to the item.

4. REGULATORY REQUIREMENTS. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

5. QUALITY ASSURANCE PROVISIONS

5.1 Certification. The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this commercial item description and conforms to the producer's own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to the first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

5.2 Market acceptance criteria. The item offered, or a generic equivalent, must have been sold to the commercial market or to the Government for at least two years.

5.3 Warranty. The item offered shall include the standard warranty given to the commercial market beginning with the date of delivery of the individual items.

5.4 Visual examination. Each maritime day signal shall be examined for the defects listed below.

5.4.1 Defects. Any hole, cut, or tear; color not as specified; any part shaded; any spot or stain (outside); raw edges, open seams, thread ends not removed, or loose tension resulting in loose seams; any material defects, distorted parts or poor workmanship; any component part omitted; grommets not type or size specified, improperly set, cracked or broken; label missing, incorrect, or illegible; measurement of item not as specified; bar code omitted or not readable by scanner; human-readable interpretation (HRI) omitted or illegible; bar code not visible
