COMMERCIAL ITEM DESCRIPTION

DOXORUBICIN HYDROCHLORIDE FOR INJECTION, USP

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Military Specification MIL-D-37656 which is cancelled.

Salient characteristics:

Shall be lyophilized Doxorubicin Hydrochloride for Injection, USP.

Shall be in accordance with the requirements of the USP.

All ingredients shall be of pharmaceutical grade.

For Strength I, shall contain 10 mg of Doxorubicin Hydrochloride, USP, 50 mg of Lactose Nf and 1 mg of Methylparaben, Nf (added to enhance dissolution), per vial within the applicable assay limits.

For Strength II, shall contain 20 mg of Doxorubicin Hydrochloride, USP, 100 mg of Lactose, Nf per vial within the applicable assay limits.

For Strength III, shall contain 50 mg of Doxorubicin Hydrochloride, 250 mg of Lactose Nf and 5 mg of Methylparaben, Nf (added to enhance dissolution), per vial within the applicable assay limits.

For Strength IV, shall contain 150 mg of Doxorubicin Hydrochloride, USP, 750 mg of Lactose, Nf per vial within the applicable assay limits.

The lyophilized solid shall dissolve completely in 5 minutes, leaving no visible residue when reconstituted in accordance with the manufacturer's directions.

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Workmanship. The injections shall be free from defects which detract from their appearance or impair their serviceability.

Unit.

For Size 1- Package (PG). Shall be supplied in a 10 ml of commercially available vial. One package containing 10 vials, as specified, constitutes one unit.

For Size 2- Package (PG). Shall be supplied in a commercially available vial. One package containing 5 vials, as specified, constitutes one unit.

For Size 3- Vial (VI). Shall be supplied in a 50 ml of commercially available vial. One vial, as specified, constitutes one unit.

For Size 4- Vial (VI). Shall be supplied in a commercially available vial. One vial, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.
