PAGE 16

5.3, line 5, under "Type of material": insert "Class of material".

Add the following:

"6.1.4 Class designation. A class system has been established in order to distinguish between materials which do, and do not, curl. Class 1 material has unlimited use and is suitable for the fabrication of bags by manual sealing methods or by automated bag making machines. Class 2 material is suitable for the fabrication of bags only by automated bag making machines."

PAGE 17

6.2, b. : Delete "Type of material" and substitute "Type and class of material, as applicable."

6.2, add the following:

"i. Manufacturer will provide the month and year of material manufacture (see 6.2.1)."

Add the following:

"6.2.1 Identification. The Government will accept material marked in accordance with the current revision until March 1989. The Government will not accept material not marked in accordance with Amendment 1, paragraph 3.6 after March 1989."

PAGE 19

Table I, first column: (a) Below "Resistance to Curl" insert "(Class 1 only)".

(b) Delete "Contact Corrosity" and substitute "Contact Corrosivity".

PAGE 21

Table II, column 1, under "Resistance to Curl": Add "(Class 1 only)".
