COMMERCIAL ITEM DESCRIPTION

TABLES, ALUMINUM, GENERAL PURPOSE

The General Services Administration has authorized the use of this commercial item description for all federal agencies.

1. SCOPE

1.1 Scope. This commercial item description (CID) covers general purpose aluminum tables with folding legs.

1.2 Intended use. The aluminum tables will be used as work tables and dining tables in a field environment.

2. CLASSIFICATION

2.1 Classification. The tables shall conform to the following types, sizes and colors as specified (see 7.1).

Type I - Nonadjustable legs

Size 1 - 36 inches wide x 72 inches long x 29 inches high, with a maximum weight of 48 pounds.
Size 2 - 36 inches wide x 96 inches long x 29 inches high, with a maximum weight of 60 pounds.
Size 3 - 30 inches wide x 48 inches long x 29 inches high, with a maximum weight of 30 pounds.
Size 4 - 30 inches wide x 48 inches long x 36 inches high, with a maximum weight of 35 pounds.

Beneficial comments (recommendations, additions, deletions) and any pertinent data which may be of use in improving this document should be addressed to: U.S. Army Natick Research, Development and Engineering Center, Natick, MA 01760-5018 by using the Standardization Document Improvement Proposal (DD Form 1426) appearing at the end of this document or by letter.

Type II - Adjustable legs

Size 5 - 30 inches wide x 48 x inches long with adjustable legs from 24 1/2 to 34 1/2 inches high with a maximum weight of 42 pounds.

Color 1 - Green
Color 2 - Tan
Color 3 - Commercial color selection

3. SALIENT CHARACTERISTICS

3.1 Design and construction. The tables shall be of the types, sizes and colors as specified (see 2.1 and 7.1). The tables shall have legs which can be folded flat against the underside of the table for storage and transportation. The size 5 table shall have legs that are adjustable in 1-inch increments to permit the height of the table to range from 24 1/2 to 34 1/2 inches. All exposed surfaces on corners, edges and tabletop shall be smooth with no visible protrusions.

3.2 Load capacity. The table in its fully opened position, shall support a uniformly distributed static load of 1600 pounds without collapsing or exhibiting permanent deformation of the tabletop, frame or leg assemblies.

3.3 Finish. The table shall have a fade, chip and scratch resistant, fused epoxy polyester powder-coated finish.

3.4 Color. The color of the table shall be either green (color 1), tan (color 2) or commercial color (color 3) as specified (see 7.1 and 7.4). Tables of a specific lot shall not exhibit any variation in shade from the specific color selected and specified in the contract for the production lot. Color 3 tables shall not reflect a "government unique" requirement, but shall be selected from the manufacturer's standard commercial colors. The selected color shall be cited in the contract or purchase order.

3.5 Legs. The legs shall have positive acting locking devices when the table is fully opened. Leg bottoms shall be equipped with tips or caps for floor protection.

3.6 Drop test. A folded table shall be capable of being dropped on each corner from a height of 2 feet onto a smooth hard surface without structural damage such as cracking or crushing.

3.7 Finish temperature resistance. The tabletop finish shall not exhibit evidence of blistering, discoloring or cracking after direct contact with a hot object having a temperature of no more than 160^0F for 10 minutes.

Check the source to verify that this is the current version before use.

3.8 Operating conditions. The tables shall be capable of withstanding extreme weather conditions, i.e., rain/sun/snow and temperatures of -25^0F to 120^0F without exhibiting any evidence of corrosion or mechanical degradation.

3.9 Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, provided they fall within the tolerances specified using conversion tables contained in the latest revision of ASTM E 380, and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable. The contracting officer has the option of accepting or rejecting the product.

4. REGULATORY REQUIREMENTS

4.1 Contractor-recovered materials. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

5. QUALITY ASSURANCE PROVISIONS

5.1 Product conformance. The products provided shall meet the salient characteristics of this commercial item description, shall conform to the producer's own drawings, specifications, standards and quality assurance practices, and be the same product that has been sold in the commercial marketplace, or is the same product that has successfully been delivered to the Government on a previous contract or purchase order. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

5.2 Market acceptability (MA). The following market acceptability criteria is necessary to document the quality of the product to be provided under this CID:

a. The company producing the item must have been producing a product meeting the requirements of this CID for at last 2 years.
b. The company must have sold 500 items meeting this CID, in the commercial or government marketplace over the past 2 years.

6. PACKAGING

6.1 Packaging. Preservation, packing and marking shall be as specified in the contract or purchase order (see 7.1).

7. NOTES

7.1 Ordering data. Acquisition documents must specify the following:

a. Title, number and date of this document

b. Type, size and color required (see 2.1)

c. Packaging requirements (see 6.1)

7.2 Sources for non-government association documents:

AMERICAN SOCIETY FOR TESTING AND MATERIALS (ASTM)

E 380 - Use of the International System of Units (SI) (The Modernized Metric System)

(Application for copies of ASTM standards should be addressed to the American Society for Testing and Materials, 100 Barr Harbor Drive, West Conshohocken, PA 19428).

7.3 Sources of supply. Manufacturers whose products are known to meet the requirements of this document in whole or in part are listed below; however, competition is not limited to these companies.

Southern Aluminum
Highway 82 West
P.O. Box 884
Magnolia, AR 71753

Mity-Lite
1301 W 400 N
Orem, UT 94057

7.4 Table color. Past experience has shown that a table with a green color conforming to No. 34095 or a tan color conforming to No. 33446 of FED-STD-595 were found to be acceptable.

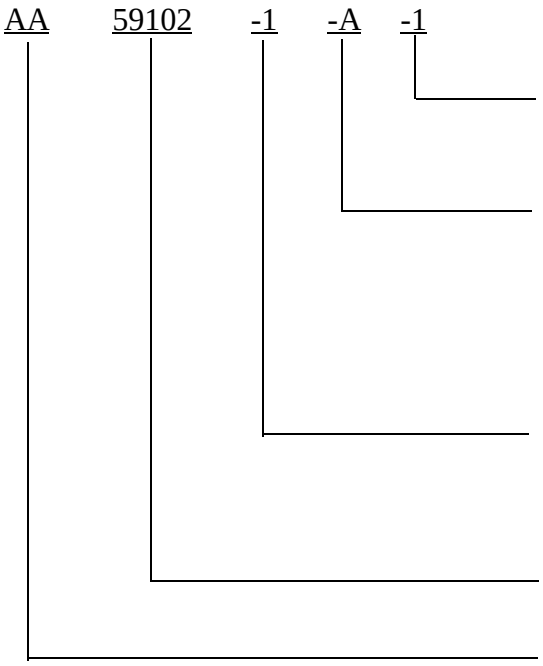
7.5 Part identification number (PIN). The PINs to be used for items required by this CID are created as follows:



(Example of a PIN: AA59102-1-A-1)

Type: 1 - Type I
2 - Type II

Size: A - Size 1
B - Size 2
C - Size 3
D - Size 4
E - Size 5

Color : 1 - Green
2 - Tan
3 - Commercial Color Selection

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

INSTRUCTIONS

1. The preparing activity must complete blocks 1, 2, 3, and 8. In block 1, both the document number and revision letter should be given.

2. The submitter of this form must complete blocks 4, 5, 6, and 7.

3. The preparing activity must provide a reply within 30 days from receipt of the form.

NOTE: This form may not be used to request copies of documents, nor to request waivers, or clarification of requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
