COMMERCIAL ITEM DESCRIPTION

INSECT REPELLENT, CLOTHING AND PERSONAL APPLICATION

The General Services Administration has authorized the use of this commercial item description for all federal agencies.

1. SCOPE. This commercial item description covers one type of diethyltoluamide insect repellent packed in a 60 milliliter (mL) (2 ounce (oz)) olive drab polyethylene bottle.

2. SALIENT CHARACTERISTICS. The insect repellent shall consist of a solution of 75 percent by weight diethyltoluamide and remainder denatured alcohol that shall be registered in accordance with 40 Code of Federal Regulations (CFR) for use on both skin and clothing applications repelling the following insects: mosquitoes, biting flies (to include black, deer, horn, horse, snipe, greenhead and stable flies), biting midges, ticks, chiggers, gnats and fleas.

3. REGULATORY REQUIREMENTS

3.1 Registration / labeling. Labels shall meet the requirements of 40 CFR 152 to 186, Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), and shall be registered with the Environmental Protection Agency (EPA).

3.2 Packaging. The insect repellent shall be unit packed in a 60 mL (2 oz) polyethylene bottle conforming to MIL-B-26701 except for the following deviations: Each polyethylene bottle shall conform to color No. 24087 Olive Drab of FED-STD-595. The Olive Drab color shall be produced by the use of inorganic pigments. The bottle shall be oval around the vertical axis and shall be formed in one piece with an 18-410 medium (depth), continuous thread concealed bead finish in accordance with Glass Container Manufacturers Institute (GCMI) Recommended Glass Finish 410. The approximate dimensions of the bottle shall be approximately 10 centimeters (cm) (3 3/4 inches) over all height, with a major axis of 5 cm (1 15/16 inches) and a minor axis of 2.5

Beneficial comments, recommendations, additions, deletions, clarifications, etc., and any data which may improve this document should be sent by letter to: Defense Supply Center Richmond (DSCR), ATTN: DSCR-VBD, 8000 Jefferson Davis Highway, Richmond, VA 23297-5610.

cm (1 inch). The minimum wall thickness shall be 0.25 mm (0.01 inch). The empty bottle weight, less cap and plug, shall be 9 ± 0.5 grams (g). The inside dimension of the finish shall be 12.00 ± 0.15 mm (0.476 ± 0.006 inch). Each finish shall be provided with a 12.50 ± 0.125 cm (0.500 ± 0.005 inch) diameter spray-orifice plug. Each plug shall have a 0.75 ± 0.125 mm (0.030 ± 0.005 inch) diameter spray orifice. Each plug shall be provided with a cap made of black phenolic or melamine thermosetting plastic. The cap shall match the 18-400 finish of the bottle. The cap shall be furnished with a securely fitted liner 1.00 mm (0.040 inch) in thickness and faced with 0.04 mm (0.0015 inch) thick tin or aluminum foil. When the cap is completely screwed onto the bottle, the plug shall fit firmly against the liner to ensure sealing against leaking. There shall be not less 3 mm (0.118 inch) clearance between the bottom of the skirt of the cap and any portion of the shoulder area of the bottle. A screw cap seal and an inner seal are required.

3.3 Material safety data sheets. Material safety data sheets shall be furnished in accordance with 29 CFR 1910.1200 and submitted as directed in the contract or order at time of acquisition award.

4. QUALITY ASSURANCE PROVISIONS

4.1 Product conformance. The product provided shall meet the salient characteristics of this commercial item description, conform to the producer's own drawings, specifications, standards, and quality assurance practices, and be the same product offered for sale in the commercial market. The government reserves the right to require proof of such conformance.

4.2 Market acceptability. The item offered must have been sold to the government or commercial market.

5. PACKAGING.

Preservation, packing, labeling, and marking shall be as specified in the contract or order.

6. NOTES

6.1 Source of documents.

6.1.1 The Code of Federal Regulations (CFR), federal specifications and standards may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402-0001.

6.1.2 The Glass Container Manufacturers Institute (GCMI) specification may be obtained from the Glass Container Manufacturers Institute, 1800 K Street N.W., Washington, DC 20006.

6.2 Ordering data. Acquisition documents must specify the title, name, and date of this CID.

6.3 National stock number (NSN). The following NSN corresponds to this commercial item description: 840-00-753-4963. It may not be indicative of all possible NSNs associated with this document.
