FEDERAL SPECIFICATION

DISH, EVAPORATING, PLATINUM

This specification was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

1. SCOPE AND CLASSIFICATION

1.1 Scope. This specification covers platinum evaporating dishes suitable for water analysis and laboratory use.

1.2 Classification.

1.2.1 *Types and capacities.* Platinum evaporating dishes shall be of the following types and capacities, as specified (see 6.1).

Type I—Shallow form without pourout spout.
Capacity:
100 milliliter (ml.)

Type II—Regular form with pourout spout.
Capacity:
50 milliliter
125 milliliter

2. APPLICABLE SPECIFICATIONS, STANDARDS, AND OTHER PUBLICATIONS

2.1 The following specifications and standards, of the issues in effect on date of invitation for bids, form a part of this specification to the extent specified herein:

Federal Specifications:

PPP-B-601—Boxes, Wood, Cleated-Plywood.

PPP-B-621—Boxes, Wood, Nailed and Lock-Corner.

PPP-B-636—Box, Fiberboard.

PPP-B-676—Boxes, Set-up, Paperboard.

PPP-C-843—Cushioning Material, Cellulosic.

Federal Standards:

Fed. Std. No. 102—Preservation, Packaging, and Packing Levels.

Fed. Std. No. 123—Marking for Domestic Shipment (Civilian Agencies).

(Activities outside the Federal Government may obtain copies of Federal Specifications, Standards, and Handbooks as outlined under General Information in the Index of Federal Specifications, Standards, and Handbooks and at the prices indicated in the Index. The Index, which includes cumulative monthly supplements as issued, is for sale on a subscription basis by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

(Single copies of this specification and other product specifications required by activities outside the Federal Government for bidding purposes are available without charge at the General Services Administration Regional Offices in Boston, New York, Washington, D. C., Atlanta, Chicago, Kansas City, Mo., Dallas, Denver, San Francisco, and Auburn, Wash.

(Federal Government activities may obtain copies of Federal Specifications, Standards, and Handbooks and the Index of Federal Specifications, Standards, and Handbooks from established distribution points in their agencies.)

TABLE I.—*Dimensions of platinum evaporating dishes*

Type	Capacity,* milliliters	Dimensions: Top inside diameter, millimeters	Height, millimeters	Weight, grams
I	100	76 ± 6	27.5 ± 7.5	35 ± 5
II	50	54.5 ± 2	27 ± 2	19.5 ± 5
II	125	78 ± 2	35.5 ± 2	42 + 1 − 0

* Maximum of 105 percent of capacity.

Military Standards:

MIL-STD-105—Sampling Procedures and Tables for Inspection by Attributes.

MIL-STD-129—Marking for Shipment and Storage.

(Copies of Specifications and Standards required by suppliers in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

3. REQUIREMENTS

3.1 **Materials.** Unless otherwise specified, the platinum dishes shall be made of 99.9 percent platinum alloyed with not more than 0.4 percent iridium.

3.2 **Style and design.** Platinum evaporating dishes shall be either of two types—type I, shallow dish without pourout spout, having slightly tapered sides and a flat bottom having a minimum thickness of 0.16 millimeters or type II, rounded bottom with a pourout spout conforming to the dimensions in table I.

3.3 **Marking.** Platinum evaporating dishes shall be permanently and legibly marked with the name or registered trademark of the manufacturer.

3.4 **Workmanship.** Platinum evaporating dishes shall be free from defects (scratches, dents, punctures) and contamination (grease, oil, foreign matter) which detract from their appearance or which may impair their serviceability.

4. SAMPLING, INSPECTION, AND TEST PROCEDURES

4.1 The supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified, the supplier may utilize his own or any other inspection facilities and services acceptable to the Government. Inspection records of the examination and tests shall be kept complete and available to the Government as specified in the contract or order. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure that supplies and services conform to prescribed requirements.

4.2 Special provisions.

4.2.1 *Alternative inspection (including testing) procedures.* The supplier may utilize any alternative inspection procedure which will insure equal or better quality by submitting a written proposal with justification and obtaining written approval from the Government prior to instituting the procedure. In case of dispute, the procedures of this specification will govern.

4.2.2 *Supplemental evidence.* The supplier shall provide evidence acceptable to the contracting officer that the requirements of 3.1 and section 5 have been satisfied.

Check the source to verify that this is the current version before use.

4.3 Lotting. A lot shall consist of the platinum evaporating dishes of the same type and same capacity offered for acceptance at one time, which has been produced by one manufacturer under essentially the same manufacturing conditions.

4.4 Sampling for destructive examination. Sampling shall be conducted in accordance with MIL-STD-105.

4.5 Examination. Sample platinum evaporating dishes and level A and level B preparation for delivery thereof shall be examined in accordance with the classification of defects and with MIL-STD-105.

4.5.1 *Classification of defects.*

4.5.1.1 *Platinum dishes.*

Categories	*Defects*
Critical:	None defined
Major:	*AQL 4.0 percent defective*
101	Dimension incorrect.
102	Damaged (scratches, dents, or punctures).
103	Contamination (oil, grease, or foreign matter).
104	Marking illegible, incorrect, or missing.

4.5.1.2 *Level A and level B preparation for delivery (section 5).*

Categories	*Defects*
Critical:	None defined
Major:	*AQL 2.5 percent defective*
101	Unit container not as specified.
102	Cushioning not as specified.
103	Shipping container not as specified.
104	Shipping container closure not as specified.
105	Marking illegible, incorrect, or incomplete.

5. PREPARATION FOR DELIVERY

(For civil agency procurement, the definitions and applications of the levels of packaging and packing shall be in accordance with Fed. Std. No. 102).

5.1 Packaging. Packaging shall be level A or C, as specified (see 6.1).

5.1.1 *Level A.* Each platinum evaporating dish shall be packaged in a paperboard box conforming to PPP-B-676, type, class, and style optional. The box shall be closed in accordance with the appendix of the box specification. The dish shall be cushioned in sufficient material conforming to PPP-C-843, type II, class B to form a tight pack.

5.1.2 *Level C.* Platinum evaporating dishes shall be packaged in accordance with the manufacturer's commercial practice suitable for shipment from the supply source to the first receiving activity for immediate use.

5.2 Packing. Packing shall be level A, B, or C, as specified (see 6.1).

5.2.1 *Level A.* Platinum evaporating dishes, of the same type and capacity, shall be packed in a snug-fitting shipping container conforming to PPP-B-621, class 2 or PPP-B-601, overseas type. Containers shall be closed and strapped in accordance with the applicable container specification or appendix thereto.

5.2.2 *Level B.* Platinum evaporating dishes shall be packed in fiberboard boxes conforming to PPP-B-636, type I or II, class 1, style RSC, minimum bursting strength 275 pounds per square inch.

5.2.3 *Level C.* Platinum evaporating dishes shall be packed to insure carrier acceptance and safe delivery at first domestic destination. Containers shall be in accordance with carrier regulations applicable to the mode of transportation (see 6.3).

5.3 Marking.

5.3.1 *Civil agencies.* In addition to any special marking required by the contract or order, marking shall be in accordance with Fed. Std. No. 123.

Check the source to verify that this is the current version before use.

5.3.2 *Military agencies.* In addition to any special marking required by the contract or order, unit packages, intermediate packages, and shipping containers shall be marked in accordance with MIL-STD-129.

6. NOTES

6.1 **Ordering data.** Purchasers should exercise any desired option offered herein and procurement documents should specify the following:

(*a*) Title, number, and date of this specification.

(*b*) Level of packaging and packing required.

(*c*) Type and capacity (when applicable) of evaporating dish required.

(*d*) Material if other than as specified.

6.2 **Military use.** Items procured under this specification for military use are to be limited to the variety shown on the applicable military standards and military supply standards. Personnel of the military departments are requested to refer to these documents for guidance.

6.3 **Transportation description.** Transportation description applicable to this item is:

Dish, Evaporating, Platinum.

Not taken by freight. Ship only via REA or Parcel Post.

Notice. When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility nor any obligation whatsoever, and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use, or sell any patented invention that may in any way be related thereto.
