INCH-POUND

MIL-D-51082E
INT. AMENDMENT 3 (EA)
7 September 1990
SUPERSEDING
INT. AMENDMENT 2
6 April 1989

MILITARY SPECIFICATION

DETECTOR TUBES, CHEMICAL AGENT

This interim amendment is approved for use within *U.S. Army Chemical Research, Development and Engineering Center, Department of the Army, with MIL-D-51082E, dated 12 October 1984.*

PAGE 2

2.1.1:

Under "SPECIFICATIONS", "MILITARY": Add the following in sequence;
"MIL-D-50028 - DB3"

Under "DRAWINGS": Add the following:

"136-41-1520 - Portable Gas Generator, Q219."

After the "DRAWINGS" list add the following:

"SPECIAL PACKAGING INSTRUCTIONS (SPI)

P5-77-820-1 - Clips, Detector Tube (Type I)
P5-77-820-5 - Clips, Detector Tube (Type VII)"

AMSC N/A FSC 6665

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

|Table I: After "DB3" insert: "(conforming to MIL-D-50028)"

PAGE 7

4.3.2.3: Insert the following new paragraph in sequence:

"**4.3.2.3 For packaging.** When type I detector tubes or type VII detector tubes, or both as applicable, are being procured as repair or replacement parts, and after the lot is packaged for shipment and storage, the sampling for packaging inspection shall be conducted in accordance with MIL-STD-105. The packaging inspection shall not be required for interplant shipment."

PAGE 8

4.3.3.3: Add the following new paragraph in sequence:

"**4.3.3.3 For packaging.** When being procured as repair or replacement parts, the sample of type I detector tubes or type VII detector tubes, or both as applicable, shall be packaged in accordance with their respective SPI (see5.2), and examined for all the requirements of the applicable drawings, the classification of defects, and MIL-STD-105.

4.4.2.1: Add the following to the end of the paragraph: "When the detector tubes are being procured as repair parts or replacement parts, test samples of type I detector tubes or type VII detector tubes, or both as applicable shall be packaged in accordance with their respective SPI (see 5.2)."

4.4.3.1: Add the following to the end of the paragraph: "When the detector tubes are being procured as repair or replacement parts, test samples of type I detector tubes or type VII detector tubes, or both as applicable shall be packaged in accordance with their respective SPI (see 5.2)."

PAGE 9

4.4.3.3(e): Delete the major defects and substitute the following:

"101 Item not completely clean or dry
102 Unit pack container and closure not as specified
103 Unit pack quantity incorrect
104 Marking incorrect missing or illegible"

4.4.4.5, line 4: After "(Drawing IL 136-41-780)" add "or Portable Gas Generator, Q219 (Drawing 136-41-1520)."

PAGE 11

5. **PACKAGING**: Delete in its entirety and substitute the following:

"**5. PACKAGING**

5.1 Interplant shipment (see 6.6). Military packaging as specified in 5.2 is not applicable for interplant shipments. The detector tubes shall be packaged to provide adequate protection from physical damage, and marked to identify the detector tubes and provide any other required data during shipment from the source to the first receiving activity.

5.2 Repair and replacement parts. For all shipments, other than interplant shipments (see 6.6), packaging (preservation, unit packing, packing and marking) for type I and type VII, shall be as specified in applicable SPI P5-77-820-1 (type I) or P5-77-820-5 (type VII)."

PAGE 13

6.2: Delete in its entirety and substitute the following:

"**6.2 Acquisition requirements.** Acquisition documents must specify the following:

(a) Title, number, and date of this specification
(b) Issue of DODISS to be cited in the solicitation, and if required, the specific issue of individual documents referenced (see 2.1.1)
(c) Applicable assembly drawing (see3.2)
(d) Type of tubes required
(e) Shelf life code
(f) Whether interplant shipment is required or repair parts packaging is required
(g) Preproduction:

(1) Time allowed for contractor submission of samples for Government test and evaluation after award of contract
(2) Name and address of the test facility and shipping instructions when testing is performed by the Government

Check the source to verify that this is the current version before use.

(3) Time required for the Government to notify the contractor whether or not to proceed with production"

PAGE 14

6.6: Add the following new paragraph in sequence:

"**6.6 Interplant shipment.** Packaging and marking for interplant shipment is for supplies and materials that do not directly enter the military supply system. Typical interplant shipments are shipments from the vendor to a subcontractor or a prime contractor, or between contractors and subcontractors, or from a vendor or contractor to a military arsenal, plant, or other activity for evaluation, immediate use, or further processing as specified in the applicable contract."

Note; Changes from previous issues. The margins of this Amendment are marked with vertical lines to indicate where changes (additions, modifications, corrections, deletions) from the previous issue were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous issue.
