MILITARY SPECIFICATION SHEET

TOPOGRAPHIC SUPPORT SYSTEM (TSS):

INFORMATION SECTION, TOPOGRAPHIC

SUPPORT SET, SEMITRAILER MOUNTED

The complete requirements for procuring the information section described herein shall consist of this document and the latest issue of MIL-T-52964(ME).

1. REQUIREMENTS

1.1 Description. The information section shall be as shown in Figure 1 and shall be equipped with the components listed in SC 6675-97-CL-E52.

1.2 Components. Components of the information section shall be manufactured and operate in conformance with the component's technical specifications and literature.

1.3 Special provisions. Custom built shelving (metal or wood) shall be constructed to house the foil and paper used with the Diazo Printer (see component lists for description of foil, paper and quantities required). The quantities shall be stored under the table.

2. TESTS

2.1 Component test. The component tests procedure shall be written and conducted by the contractor to determine the component's conformance to its' technical specifications and literature. The test shall be conducted in a van environment. The component test shall be conducted twice; once prior to any Section 4 testing and once after completing all testing as specified in Section 4 of the general specification.

2.1.1 Test items. The following components of the information section shall be tested:

Planimeter
Diazo Printer
Pin Register Board
Desk Mounted Copier
Mobile Cart Copier

Nonconformance to 1.2 shall constitute failure of this test.

3. NOTES

3.1 Intended use. The information section (with assigned personnel) will maintain the holding of processed Military Geographic Information (MGI), such as factor overlays; base maps; reference texts; and illustrative imagery, such as ground photographs. Some of the holdings are received directly from the collection section, but most information is received from the analysis section. In addition to a complete catalog of all holdings and their locations, this section keeps records on the dates information was revised, updated, or confirmed. A log is maintained to control all items sent to another section. This section also prepares collection requiests for information to fill gaps in holdings; such requests are sent to the collection section for action. Other TSS subsystems may obtain military geographic information from this section.

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

OMB Approval
No. 22-R255

INSTRUCTIONS: The purpose of this form is to solicit beneficial comments which will help achieve procurement of suitable products at reasonable cost and minimum delay, or will otherwise enhance use of the document. DoD contractors, government activities, or manufacturers/ vendors who are prospective suppliers of the product are invited to submit comments to the government. Fold on lines on reverse side, staple in corner, and send to preparing activity. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements. Attach any pertinent data which may be of use in improving this document. If there are additional papers, attach to form and place both in an envelope addressed to preparing activity.
