COMMERCIAL ITEM DESCRIPTION

SOUPS, CANNED

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description in preference to Federal Specification JJJ-S-581.

This Commercial Item Description (CID) covers market varieties of soup, packed in commercially acceptable containers, suitable for use by the Federal Government.

Salient characteristics.

The solicitation, contract, or purchase order shall specify the type and style of product desired.

Types and styles.

Type I - Ready-to-serve, regular

Style 1 - Beef Noodle
Style 2 - Chicken Noodle
Style 3 - Chicken with Rice
Style 4 - Clam Chowder, New England
Style 5 - Cream of Chicken
Style 6 - Cream of Mushroom
Style 7 - Cream of Tomato
Style 8 - Vegetable
Style 9 - Vegetable with Beef

Type II - Ready-to-serve, reduced sodium

Sodium content less than 5 milligrams per serving.

Style 1 - Cream of Mushroom, Sodium Free
Style 2 - Vegetable, Sodium Free

Sodium content 35 milligrams or less per serving.

Style 3 - Beef with Vegetables, Very Low Sodium
Style 4 - Green Pea, Very Low Sodium
Style 5 - Tomato, Very Low Sodium
Style 6 - Turkey Noodle, Very Low Sodium

FSC 8935/8940

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T08:33Z
Check the source to verify that this is the current version before use.

Sodium content 140 milligrams or less per serving.

Style 7 - Chicken Noodle, Low Sodium
Style 8 - French Onion, Low Sodium
Style 9 - Split Pea, Low Sodium
Style 10 - Tomato with Tomato Pieces, Low Sodium

Type III - Condensed

Style 1 - Beans with Bacon
Style 2 - Beef Noodle
Style 3 - Beef with Vegetables and Barley
Style 4 - Chicken Gumbo
Style 5 - Chicken Noodle
Style 6 - Chicken Vegetable
Style 7 - Chicken with Rice
Style 8 - Clam Chowder, Manhattan
Style 9 - Clam Chowder, New England
Style 10 - Cream of Asparagus
Style 11 - Cream of Celery
Style 12 - Cream of Chicken
Style 13 - Cream of Mushroom
Style 14 - Cream of Pea
Style 15 - Cream of Potato
Style 16 - Cream of Tomato
Style 17 - French Onion
Style 18 - Garden Vegetable
Style 19 - Green Pea
Style 20 - Minestrone
Style 21 - Split Pea with Ham
Style 22 - Tomato
Style 23 - Tomato and Rice
Style 24 - Vegetable
Style 25 - Vegetable with Beef
Style 26 - Vegetarian Vegetable

Ready-to-serve soups and condensed soups (prepared with an equal portion of water or other diluent) when heated to a simmer, shall possess a color, odor, and flavor characteristic of the specified market variety. Texture of the product or each unit thereof; e.g., the vegetables, rice, or noodles (if used), shall not be dry, rubbery, or mushy. The broth or cream sauce shall be characteristic of the soup designated.

Meat, when required, shall not be tough and shall retain its configuration. Drained weight of meat, when required, shall be determined in relation to the total contents of the container. The product shall meet drained weight, percent of fat, and percent of sodium chloride or sodium, as applicable, on an individual basis.

TABLE III. Condensed (Cont'd.)

Style	Description	Percent Drained Weight (Minimum)	Percent Fat (Maximum)	Percent Sodium Chloride
Vegetable	A seasoned broth with carrots, tomato paste, peas, potatoes, and barley	Total 31.7	1.0	1.7-2.0
Vegetable with Beef	Beef and at least three vegetables in a seasoned broth	Total 38.8 Beef 10.0	2.5	1.7-2.1
Vegetarian Vegetable	A vegetarian soup containing tomatoes, carrots, celery, corn, green peas, pasta, and spices	Total 43.8	1.3	1.3-2.1

Analytical requirements.

Chemical analyses shall be made in accordance with the following methods in the latest edition of the Official Methods of Analysis of the Association of the Official Analytical Chemists:

Test	Source		Method
Fat	Chapter: Section:	Meat and Meat Products Fat (Crude)	Rapid Method
Salt	Chapter: Section:	Vegetable Products, Processed Canned Vegetables	Sodium Chloride (Method II)

Contractor's certification.

By submitting an offer, the contractor certifies that the product offered meets the specified salient characteristics and requirements of this CID; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories, or possessions; and is sold on the commercial market. The Government reserves the right to determine

Check the source to verify that this is the current version before use.

proof of such conformance prior to the first delivery from point of origin and any time thereafter, up to and including delivery at final destination, as may be necessary to determine conformance with the provisions of the contract.

Regulatory requirements.

The meat or poultry component and the finished product shall originate and be produced, processed, and stored in plants approved under Meat and Poultry Inspection Regulations of the U.S. Department of Agriculture. The fishery product component shall comply with Regulations Governing Processed Fishery Products, Processed Products Thereof, and Certain Other Processed Food Products, Inspection and Certification, 50 CFR, Subchapter G, Part 260. The delivered product shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sales of the product in the commercial marketplace. All deliveries shall conform in every respect to the provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Quality assurance.

When required in the solicitation, contract, or purchase order, the Processed Products Branch, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture will determine the quality assurance of the canned soups. The product shall be examined and/or analyzed in accordance with the applicable provisions in the CID, and when applicable, the United States Standards for Condition of Food Containers currently in effect on the date of the solicitation.

Preservation, packaging, packing, labeling, and marking.

The canned soups shall be preserved, packaged, packed, labeled, and case marked in accordance with good commercial practice. Commercial labeling and packaging, as may be augmented by the solicitation, contract, or purchase order, shall be acceptable. Shipping containers shall comply with the National Motor Freight Classification or Uniform Freight Classification, as applicable.

For Department of Defense procurements.

The following requirements are applicable when specified by the contracting officer:

A. Commercial packaging. Soup shall be packaged in a can in accordance with good commercial practice. Easy-open features are acceptable.

B. Commercial packing. Packing shall comply with the Uniform Freight Classification or National Motor Freight Classification, as applicable.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T08:33Z
Check the source to verify that this is the current version before use.

C. Export packaging. Condensed soup shall be packaged in a 211 x 400 or 404 x 700 can. Ready-to-serve soup shall be packaged in a 211 x 304 can. The can shall be an open-top style, round, metal can with soldered or welded side seams, or a one-piece drawn body and compound-lined, double-seamed ends. Alternatively, can ends may be fabricated from ECCS plate, enameled both inside and out. The entire inside area shall be enameled. The can shall be coated outside with a coating conforming to Type I, or when specified, Type III of TT-C-495. The filled can shall be hermetically sealed and shall retain a vacuum. Easy-open features are not acceptable.

D. Export packing. Twelve 404 x 700 cans, forty-eight 211 x 400 cans, or twenty-four 211 x 304 cans shall be packed in a fiberboard box constructed, closed, and reinforced in accordance with PPP-B-636, Type CF or SF, Class Weather-resistant, Style RSC. Reinforcement shall be limited to nonmetallic strapping or pressure-sensitive adhesive, filament-reinforced tape.

E. Unit loads (commercial and export). Shipping containers shall be arranged in unit loads in accordance with MIL-L-35078. When unit loads are strapped, strapping shall be limited to nonmetallic strapping, except for Type II, Class F loads.

F. Labeling (commercial and export). Commercial labeling shall be acceptable.

G. Marking (commercial and export). Marking of shipping containers and unit loads shall be in accordance with MIL-STD-129.
