COMMERCIAL ITEM DESCRIPTION

TOOL, WIRE WRAP

The General Services Administration has authorized
the use of this commercial item description

SCOPE. This commercial item description covers an electrically powered wire wrap tool used for making solderless connections on electrical wire connections.

Salient Characteristics.

Shall include wire wrap bits and sleeves to wrap 20 to 30 gauge (AWG) copper wire on to a 1/8-inch (3.2mm) diameter copper wire.

Shall be durable and withstand wear and endure stress encountered in operations.

Shall be equipped with a double-insulated housing.

Shall operate on 110 to 120 volts, 60 cycle, single phase power and be equipped with a two conductor cord with a minimum length of 6 feet and a two prong electrical plug.

Workmanship. The wire wrapping tool, including all parts and accessories, shall be free from burrs, rust, external sharp or rough edges, imperfections, and any other defects which may impair serviceability, durability, appearance, or operational performance.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards and quality assurance practices, and is the same product offered for sale to the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered Material. The offerer/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practicable.

Preservation, Packaging, Packing and Marking. Preservation, packaging, packing, labeling and marking shall be as specified in the contract or order.
