COMMERCIAL ITEM DESCRIPTION
LEVEL, PRECISION MASTER, SINGLE FACE

The General Services Administration has authorized the use of this commercial item description as a replacement for Type IX, class 1, single face, precision master level in superseded specification GGG-L-211C.

1. SCOPE.

1.1 This commercial item description covers a single face, precision master level used to calibrate other levels.

2. REQUIREMENTS.

2.1 Salient Characteristics. The item shall be made of steel or close grain cast iron of a design to preclude warping or deflection due to temperature change. It shall also consist of a single faced stock, one adjustable level vial, one fixed cross test vial, a vial holder, a cover and a case. The vial shall have a cover or top plate of heavy nonferrous metal or plastic to shield vials from heat of operator's hand. It shall be 15 inches long and have vial accuracy of 0.0005 inches per foot of single faced stock. Concavity and convexity of single faced stock shall not exceed 0.0002 inches per foot. The vial shall be a glass tube with a vial sensitivity of 10 seconds, maximum. The vial shall have no less than three auxiliary lines, permanently marked, spaced 1/10 inch apart on both sides of both bubble defining lines. The angular value of these lines in either degrees or inches per foot shall be permanently marked on the level.

2.2 Workmanship. The level, including all parts and accessories, shall be free from burrs, rust, external sharp or rough edges, imperfections, and any other defects which may impair serviceability, durability, appearance, or operational performance.

3. QUALITY ASSURANCE.

3.1 Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards and quality assurance practices, and is the same product offered for sale in the commercial marketplace. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

4. PREPARATION FOR DELIVERY.

4.1 Preservation, Packaging, Packing and Marking. Preservation, packaging, packing, labeling, and marking shall be as specified in the contract or order.
