* 6.3.3 delete paragraph.

* 6.3.4 delete paragraph and substitute:

"6.3.4 Contractor design. Special calibration and test equipment necessary to accomplish the requirements as stated herein may be designed and manufactured by the contractor. Contractor designs shall be supported by detailed drawings which depict all information necessary to completely fabricate, calibrate and operate an item of inspection equipment. This requires that the necessary views, dimensions, materials, finish, notes, operating and calibrating instructions be properly depicted in accordance with approved practices to the extent that further calculation or clarification will not be required. Unless otherwise specified, contractor designs may be developed on the format the contractor normally employs in his equipment design procedure provided such format reflects the detail and information specified above, subject to the following controls: All submitted contractor designs shall conform to DOD-D-1000, LEVEL 2."

* 6.3.5 delete and substitute:

"6.3.5 Submission of contractor design. All submitted designs shall contain a reference to the applicable paragraphs of this specification, and test equipment shall be approved by the Procuring Activity prior to submission of first article sample. Partial submission of design is permissible. However, the completion date for design review will be based on the date of the final submission. Design review at the Procuring Activity will be accomplished approximately 30 days after receipt."

* 6.4 delete and substitute:

"6.4 Submission of first article samples. Instruction as to the location for the evaluation of the first article sample shall be obtained from the contracting officer. All inquiries should be forwarded to the address specified in the contract."

6.5 Add new paragraph 6.5 as follows:

"6.5 Verification test. As provided in AR 700-64 Chapter 5, the procuring activity shall make provision for the selection of five (5) random samples from each lot of sights for testing at an independent government approved laboratory. The samples shall be tested in accordance with 4.4.3.3 and 4.4.3.4 on equipment independent of that utilized by the production contractor. Lot acceptance shall be withheld pending receipt of the results of such tests. Failure of one or more of the five (5) samples to comply with the provisions of 3.7.3 and 3.7.4 shall be cause for the contractor to recalibrate his test equipment and 100 percent screening of the lot from which the samples were selected. All sights failing the requirement of radiation contamination or radiation level shall be removed from the lot".

* NOTICE - delete the notice at bottom of page 21 and top of 22.
