COMMERCIAL ITEM DESCRIPTION

WRAPPER, COIN

The General Services Administration, Federal Supply Service, has authorized the use of this Commercial Item Description.

This description covers flat, tubular, colored, kraft paper coin wrappers for both hand and machine wrapping.

Classification: The coin wrappers covered by this Commercial Item Description shall be of the following types, and as specified (See Section 6, Ordering Data).

Type I	- Pennies	($0.50)
Type II	- Nickels	($2)
Type III	- Dimes	($5)
Type IV	- Quarters	($10)

1. SALIENT CHARACTERISTICS:

A. The coin wrappers shall be rectangular in shape with squared corners and side seam.

B. Seam: The seam shall be an overlapping type, roughly centered on the back of the wrapper and securely bonded with a good grade of glue used commercially for this purpose.

C. Basis Weight: The paper shall have a minimum basis weight of 60 pounds (24 X 36 - 500) for penny, nickel, and dime wrappers and a minimum basis weight of 70 pounds (24 X 36 - 500) for quarters when tested in accordance with TAPPI T-410.

D. Colors: The wrappers shall be available in different colors conforming to the American Banker Association (ABA) Standards. The colors need not be solid.

E. Legend: The wrappers must be clearly imprinted on the smooth face opposite the glued seam and must state the denomination and total dollar amount.

DISTRIBUTION STATEMENT A: Approval for public release; distribution is unlimited.

1. **SALIENT CHARACTERISTICS:** (Continued)

F. Dimensions: Dimensions shall be as follows:

Type I (Pennies):
Length: 3-5/8 inches (minimum)
Diameter: 3/4 inch (minimum)

Type II (Nickels):
Length: 3-13/16 inches (minimum)
Diameter: 13/16 inch (minimum)

Type III (Dimes):
Length: 3-1/4 inches (minimum)
Diameter: 11/16 inch (minimum)

Type II (Quarters):
Length: 3-11/16 inches (minimum)
Diameter: 15/16 inch (minimum)

G. Workmanship: The coin wrappers shall be free from faulty fabrication or any defects which affect the durability, appearance or impair serviceability, including, but not limited to, superfluous coating of any kind, burrs, or discoloration.

2. **APPLICABLE DOCUMENTS AND DOCUMENT SOURCES:** The following documents form a part of this Commercial Item Description to the extent specified herein. Unless otherwise indicated, the issue in effect on the date of invitation for bids or request for proposal shall apply:

A. Federal Standard:

Fed. Std. No. 123, Marking for Domestic Shipment (Civil Agencies)

(Activities outside the Federal Government may obtain copies of Federal Specifications, Standards, Handbooks, and Commercial Item Descriptions (CIDs), as outlined under General Information in the Index of Federal Specifications, Standards and Commercial Item Descriptions. The Index, which includes cumulative bimonthly supplements as issued, is for sale on a subscription basis by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.)

Check the source to verify that this is the current version before use.

2. APPLICABLE DOCUMENTS AND DOCUMENT SOURCES:

A. Federal Standard: (Continued)

(Single copies of this Commercial Item Description, or other Commercial Item Descriptions required by activities outside the Federal Government for bidding purposes are available without charge from General Services administration Business Service Centers in Boston; New York; Philadelphia; Washington, D.C.; Atlanta; Chicago; Kansas City, MO; Fort Worth; Houston: Denver; Los Angeles; San Francisco; and Auburn, WA.)

B. Military Standards:

MIL-STD-105, Sampling Procedures and Tables for Inspection by Attributes.

MIL-STD-129, Marking for Shipment and Storage

(Copies of Military Specifications and Standards required by contractors in connection with specific procurement functions should be obtained from the U.S. Navy; Naval Publications and Forms Center; 5801 Tabor Avenue; Philadelphia, PA 19120; or as directed by the contracting officer.)

C. Public Law:

Public Law 94-580, Resource Conservation and Recovery Act, is part of U.S. Code, Title 42 (Copies of the U.S. Code may be obtained through the Congressional Sales Office, U.S. Government Printing Office, Washington, D.C. 20402.).

D. American Banker Association (ABA) Standard:

Color Guide For Coin and Currency Bulk Wrapping Identification, can be obtained from American Bankers Association, 1120 Connecticut Avenue, NW, Washington, D.C. 20036.

E. TAPPI TEST METHODS:

TAPPI T-410 is available from the Technical Association of the Pulp and Paper Industry, 15 Technology Parkway South, P.O. Box 105113, Norcross, GA 30092.

Check the source to verify that this is the current version before use.

3. **REGULATORY REQUIREMENT:** The contractor shall certify that the product offered shall include a minimum of 50% waste paper, as defined in 40 CFR, Part 250. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

4. **QUALITY ASSURANCE:**

A. Responsibility for Inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified, the supplier may utilize his own facilities or any commercial laboratory acceptable to the Government. The Government reserves the right to perform any of the inspections set forth in the Commercial Item Description, where such inspections are deemed necessary to assure that supplies and services conform to prescribed requirements (See Section 6, Ordering Data).

B. Sampling. All sampling shall be done in accordance with MIL-STD-105. The sample unit shall be one randomly selected coin wrapper; except for 4.B(4), for which it shall be one fully prepared shipping container.

(1) Sampling for Visual. The inspection level shall be S-4 with an Acceptable Quality Level (AQL) of 6.5 percent defective.

(2) Sampling for Dimensional Inspection. The inspection level shall be S-2 with an AQL of 6.5 percent defective.

(3) Sampling for Tests. The inspection level shall be S-3. The average of the variables inspected shall either meet or exceed the minimum requirements cited for each specified characteristics. The lot shall be rejected whenever a sample average does not either meet or exceed the required minimum.

(4) Sampling for Preparation for Delivery. The inspection level shall be S-2 with an AQL of 6.5 percent defective.

4. QUALITY ASSURANCE: (Continued)

C. Inspections.

(1) Visual Examination. Samples taken in accordance with paragraph 4.B.(1) and 4.B.(2) shall be examined to verify that the superficial product characteristics are in compliance with Section I.

(2) Dimensional Examination. Samples taken in accordance with paragraph 4.B.(1) and 4.B.(2) shall be examined to verify that the superficial product characteristics are in compliance with Section I.

(3) Tests. Samples taken in accordance with paragraph 4.B(3) under "Sampling" shall be tested in accordance with the TAPPI Test Method. A certified test report from the paper manufacturer covering each production lot of wrappers will be acceptable, in lieu of testing the end item wrappers for basis weight.

(4) Examination for Preparation for Delivery. Samples taken in accordance with paragraph 4.B(4) under "Sampling" shall be examined to determine compliance with Section 5.

5. PREPARATION FOR DELIVERY

A. **Packaging and Packing Provisions.** 1000 coin wrappers shall be packaged in accordance with normal commercial practices to prevent damage during multiple shipments, handling, and storage. Packaged coin wrappers shall be packed in accordance with normal commercial practice. The packing container shall be closed to prevent accidental opening and shall be such to insure carrier acceptance and safe delivery to destination, complying with the rules and regulations applicable to the mode of transportation to be used.

B. **Marking.**

(1) For Shipment to Civil Agencies. In addition to any special marking required by contract or order, marking shall be in accordance with Fed. Std. No. 123. Bar Code marking is required, unless otherwise specified (See Section 6).

B. **Marking.** (Continued)

(2) For Shipment to Military Activities. In addition to any special marking required by contact or order, marking shall be in accordance with MIL-STD-129. Bar code marking is required, unless otherwise specified (See Section 6).

6. Ordering Data:

A. Purchasers should select and specify the preferred options permitted herein, and include the following information in procurement documents:

(1) Title, number, and date of this Commercial Item Description.

(2) Required type.

(3) Arrangement for inspections and inspection facilities, if different than provisions under Quality Assurance.

(4) Special packaging and packing, if different than provisions in Packaging and Packing.

(5) Special marking, if different than provisions in Marking (see section 5.B).

(6) Specify, only if Bar Code marking is not required.
