COMMERCIAL ITEM DESCRIPTION

CLOTH, INTERLINING: NONWOVEN

The General Services Administration has authorized the use of this Commercial Item Description for all federal agencies.

1. SCOPE. This Commercial Item Description covers the requirements for nonwoven cloth that is used as interfacing for clothing items. (Note: The term interfacing instead of interlining is the correct term to describe the cloths cited in this document).

2. CLASSIFICATION. This cloth shall be available in the following types, as specified.

2.1 Types.

Type I - Light weight

Type II - Heavy weight

Type III - Medium weight

3. SALIENT CHARACTERISTICS.

3.1 Description. The cloth shall be a natural, nonwoven cloth interfacing material, manufactured from 100 percent stable synthetic fibers or a blend of stable synthetic and natural fibers randomly arranged and bound with a latex –acrylic binder to meet the requirements specified in Table I. The width shall be as specified in the contract or purchase order.

3.2 Requirements. The finished nonwoven cloth shall conform to the physical characteristics specified in Table I when tested in accordance with test methods in Table I.

Comments, suggestions, or questions on this document should be emailed to trpsptctstandardiz@dla.mil. Since contact information can change, you may want to verify the currency of this address information using the ASSIST Online database at https://assist.dla.mil.

DISTRIBUTION STATEMENT A. Approved for public release. Distribution is unlimited.

AMSC N/A FSC 8305

TABLE I. Physical characteristics and test methods.

Characteristic	Requirement			Verification method
	Type I	Type II	Type III	
Weight, oz./sq. yd. (min.)	1.6	5.6	3.0	ASTM D3776/D3776M, Opt C
Breaking strength, lbs. (min.)				ASTM D5034
Machine direction	7	100	55	
Cross machine direction	15	80	40	
Dimensional stability, percent (max.)				AATCC 135, (3),(III),(Aiii)
Machine direction	2.0	3.0	3.0	
Cross machine direction	2.0	2.0	3.0	

3.3 Length and put-up. Unless otherwise specified, (see 7.5), for Government procurement only, the cloth shall be furnished in continuous lengths of not less than 40 yards and shall be put- up full width on rolls.

3.4 Labels. Each roll of finished cloth shall be labeled or ticketed for fiber content in accordance with the Rules and Regulations under the Textile Fiber Products Identification Act (see 7.1.2).

3.5 Workmanship. The finished cloth shall conform to the quality of product established by this document. The occurrence of defects shall not exceed the contractor's own quality assurance standards and the quality assurance standards defined by the technical data in the bid package.

4. REGULATORY REQUIREMENTS.

4.1 Regulatory requirements. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

5. PRODUCT CONFORMANCE PROVISIONS.

5.1 Product conformance. The finished cloth provided shall meet the salient characteristics of this Commercial Item Description, conform to the producer's specifications, standards, and quality assurance practices, and be the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance.

5.2 Market acceptance. This finished cloth must have been sold to the commercial market or the Government.

5.3 End item inspection procedures. Sampling for inspection shall be conducted in accordance with ASQ/ANSI Z1.4 - Sampling Procedures and Tables for Inspection of Attributes (see 7.2.2).

5.4 Visual examination. The finished cloth shall be examined for the defects listed in Table II as defined in ASTM D3990:

TABLE II. Visual Examination defects.

Material	Any hole, cut, or tear.
	Puckered, wrinkled or creased/pleated material.
Label	Label missing, incorrect, or illegible. Required information missing from the label.
Packaging	Not packaged in accordance with the contract or purchase order.

5.5 Acceptance criteria. Acceptance criteria shall be as specified in the contract or purchase order (see 7.5).

6. PACKAGING. Preservation, packing, and marking shall be as specified in the contract or purchase order (see 7.5).

7. NOTES.

7.1 Sources of Government documents.

7.1.1 Copies of Government documents are available online at https://quicksearch.dla.mil.

7.1.2 Rules and Regulations under the Textile Fiber Products Identification Act are available online at https://www.ftc.gov.

7.2 Sources for Non-Government documents.

7.2.1 AATCC test methods are available online at https://www.aatcc.org.

7.2.2 ASQ/ANSI Z1.4 – Sampling Procedures are available online at https://asq.org.

7.2.3 ASTM Standards are available online at https://www.astm.org.

7.3 Intended use. This cloth is intended to be used as interfacing in clothing items.

7.4 Ordering data. The contract or purchase order should specify the following:

a. Title, number, and date of this commercial item description
b. Type required (see 2.1)
c. Length put-up required (see 3.3)
d. Labeling information (see 3.4)
e. Product conformance provisions (see 5.)
f. Packaging requirement (see 6.)
