* Add new paragraph 4.5.2.1 as follows:

"4.5.2.1 Penetration test. Five (5) each grenades from 4.5.2 shall be functioned with PA526 detonator on a single Rolled Homogeneous Armor (RHA) plate. The depth of the penetration can be measured without cutting the plate in half. The average of the five penetration readings shall meet the specified thickness in the classified annex. Classified annex may be obtained by writing to: Commander, U.S. Army Armament Research, Development and Engineering Center, ATTN: SMCAR-QAF-A, Picatinny Arsenal, NJ 07806-5000."

The margins of this amendment are marked with an asterisk or vertical lines to indicate where changes (additions, modifications, corrections, deletions) from the previous amendment were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous amendment.
