MIL-F-27707H(USAF)
AMENDMENT 2
24 Apr 80
SUPERSEDING
AMENDMENT 1
30 MARCH 1972

MILITARY SPECIFICATION

FILTER ELEMENT, FLUID PRESSURE FFU-5/E

This amendment forms a part of Military Specification MIL-F-27707H(USAF) dated 7 June 1971.

Page 1, paragraph 2.1: Under Federal, delete “PPP-B-576”, “PPP-B-585”, and “PPP-B-591". Add:

“PPP-B-601 Boxes, Wood Cleated-Plywood”.

*Page 6 Add new paragraph: “3.8 Reclaimed Materials. Recycled and recovered raw materials shall be used to the maximum extent possible in lieu of virgin raw materials as long as these materials do not jeopardize the intended use and fully comply with all contract requirements. Material used shall be free from defects which would adversely affect the performance or maintainability of individual components or the overall assembly. Materials not specified herein shall be of the same quality for the intended purpose in commercial practice. None of the above shall be interpreted to mean that the use of used or rebuilt products will be allowed.”

Page 10, paragraphs 5.2.1 and 5.2.2: Delete and substitute:

“5.2.1 Level A. Filter elements shall be packed in overseas-type (style optional) containers conforming to PPP-B-601. The containers shall be strapped in accordance with the box specification. A nameplate (see 3.6.2) shall be packed in the same container for each 12 elements or fraction thereof shipped.

“5.2.2 Level B. The filter element shall be packed in a domestic-type (style optional) container conforming to PPP-B-601 or a weather resistant (style optional) container conforming to PPP-B-636 or PPP-B-640. Closure of the container shall be in accordance with the container specification. A nameplate (see 3.6.2) shall be packed in the same container for each 12 elements or fraction thereof shipped.“

Page 11, paraqraph 5.3 first sentence: Delete “shipping” and substitute “interior and exterior”.
