Use/Relationship: The Acceptance and Description Sheet is a record showing the method of production and the results of inspection performed. In general, description sheets assist in the performance of such functions as determining the quality of propellants or explosives, comparing and evaluating the processes of various loading plans producing the same item, investigating the cause of trouble, and facilitating future surveillance and renovation.

The data contains the format and preparation instructions for the data product generated by the discrete task requirements specified in MIL-STD-1171, and associated Appendix.

The WARP User's manual can be accessed at https://mhpwarp.redstone.army.mil.

Requirements:

1. Reference documents. The applicable issue of any documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as cited in the current issue of the DODISS at the time of the solicitation, or, for non DODISS-listed documents, as stated herein.

2. Format and Content. The Acceptance Description sheets shall be in accordance with MIL-STD-1171 and the WARP User's Manual.

3. Media requirements. The Sheets shall be electronic files as specified in MIL-STD-1171 and the on-line WARP User's Manual.
